THE CITY CONVENTION.

This morning, at ten o'clock, at Council Chambers, City Building, the delegates chosen by the Union Republicans of consolidated Pittsburgh on Saturday, will meet in convention to place in nomination candidates for the offices of Mayor, Controller, Treasurer and Solicitor. Inasmuch as the nomination of the Union Republican party is almost equivalent to an election in this city, the Convention is charged with an all important duty. The people, without distinction of party, look to it to exercise care, wisdom and judgment. The several offices to be supplied should be occupied by good men only, and we trust none others will be placed before the party for its support.

THE President has confidentially informed that ubiquitous fellow, Francis McCloskey, of New York, that he does not aspire to another term in the White House, but will be satisfied to undergo the shelving process, provided some respectable party takes up and endorses his policy. He cannot bear to go down alone into the dark depths of a political grave.

MESSRS. WILLIAMS, Boutwell and Lawrence, of the Judiciary Committee, have severally written out their views in favor of the impeachment of President Johnson. The document of Mr. Williams' abounds in solid arguments, and is pronounced the ablest literary effort of his life, and that is saying very much in its favor.

NEWS BY TELEGRAPH.

—Dr. Henry P. Sartwell, eminent in scientific circles, died in Penyan, N. Y., Saturday evening.

—During last week the police of New York made twelve hundred and eighty-nine arrests.

—The best Republican lawyers in Washington do not agree with Attorney General Stanbery in his opinion against the legality of the coming session of Congress.

—A trot between the stallions George Wilkes and Farnought, Saturday, at Boston, for five thousand dollars, was won by Wilkes in three straight heats. Time, 231½, 232¼, 233¼; track muddy.

—A freight train on the Ogdensburg and Lake Champlain Railroad run off the track near Pottsdam, Vermont, Saturday morning, precipitating the engine and five cars down an embankment, killing a brakesman named Cummings.

—Jas. Creighton and John Regan, arrested at Memphis some days since, charged with robbing the Express Office at Jackson, Tennessee, of five thousand dollars, have been committed there in default of ten thousand dollars bail.

—Weston, the pedestrian, arrived at Conneaut, Ohio, at twelve minutes past eight o'clock on Saturday exening. His feet were so badly swollen that he could proceed no farther, thus failing to make the one hundred miles in twenty-four hours.

—The yellow fever subscription funds at New York have been closed, on the reported discontinuance of fever. Between eighty and ninety thousand dollars have been collected and forwarded to Galveston and New Orleans.

—At a large meeting of the leading cigar manufacturers of Philadelphia it was resolved not to accede to the demands of the journeymen, who are on a strike for an increase of twenty per cent. on their wages. The strikers number about one thousand.

—Robert H. Pomeroy, late Cashier of the Mohawk Valley National Bank, committed suicide at Utica, N. Y., Saturday morning. The act is said to have been committed on account of alleged defalcations from the bank.

—An explosion of a kerosene lamp at St. Paul, Minn., at a party given by Gen. Sibley, Thursday night last, resulted in the death of Maggie Murphy, a servant girl, and serious injury of Miss Gussie Sibley, who will lose the use of one arm. Others were burned, but not seriously.

—The British bark Oliver Cutts has been libelled at San Francisco, on behalf of the State of California, for twenty-two thousand dollars, for breach of the passenger act.

—A State Convention of the Fenian Brotherhood was in session for three days at San Francisco last week. Sixty-five circles were represented. They unanimously endorsed Roberts, and resolved to support his efforts to equip an Irish republican army.

—Fort Laramie advices of the 12th say: A council was held with a few chiefs of the Crows on the 11th. They desire to remain in their own country. The Sioux were not represented and will not come to Laramie until spring, but request General Harvey to meet them at Fort Phil Kearney.

—At Memphis, Tenn., on Saturday, at the instance of McDonough and McVicker, an injunction was granted against Geo. Deagle, who is producing the Black Crook at Greenlow Opera House, and placed in the hands of the sheriff, who closed the doors just as the audience began to assemble. The case will be heard to-day.

—The proposition to raise one hundred thousand dollars for the family of the late Governor Andrew is being carried out with the characteristic liberality of Boston citizens. The subscriptions, which are private and unsolicited, already exceed seventy-three thousand dollars.

—The Government of Canada will, during the present season, submit to Parliament a plan for the establishment of a Government savings bank. The provincial notes in circulation on the 6th of November amounted to $3,918,242; specie in reserve $800,000. Discount on American invoices for the ensuing week, twenty-eight per cent.

—At Cleveland, Ohio, Saturday morning, a man named Gregory, a photographer, doing business in the public square, was found in his room with his throat cut, and with him a girl whose name is unknown, and who had been shot. They were both dead. No circumstances explanatory of the affair have yet came to light.

—The Columbus and Augusta Railroad Bridge, at Columbia, S. C., was crossed by trains for the first time on Saturday. The directors of the road, with many citizens, crossed in the first train. The bridge is a handsome iron structure. The entire length is 1,040 feet. The road when complete will be the great through line between the North and South, and will shorten the distance between Columbia and Augusta sixty miles. The laying of the track is being pushed forward.

—A dispatch from Fort Harker to the St. Louis *Democrat* says: Two men were killed by Indians twelve miles north of Fort Dodge on the 12th. The bodies were stripped but not scalped. On the same day Harry H. Jones was killed near the same place, and treated in the same manner. The Indians are supposed to be northern Cheyennes.

—On Thursday last three persons were dangerously, if not fatally injured, at Westminster, Carroll county, Maryland, by the bursting of a cannon while firing a salute in honor of the late Democratic victories. One man had a leg torn off, and another his side penetrated by a large fragment of the gun.

—An Omaho dispatch says the five Indians who committed the massacre at Kootensi, Minn., some time since, have been given up by their chief for punishment, and have been hung.

—A. T. Leving, of Buffalo, who arrived in New York City about two weeks ago, has not been seen or heard of since the 9th inst., when he left his hotel with $35,000 in his pocket. It is feared he has been foully dealt with.

—Two entire blocks in the business part of Louisiana, Pike county, Missouri, were destroyed by fire on Friday night, involving a loss of $210,000, on which there was an insurance of sixty thousand dollars.

—The obstruction at Charleston, S. C., in the transportation of cotton, owing to the accumulation which has existed for two weeks, is now overcome by the presence of ample steamer transportation facilities.

—Shephard, who murdered his wife in Worcester, Mass., on Friday last, is still at large.

WASHINGTON, Nov. 16, 1867.

THE "UNCONSTITUTIONAL CONGRESS" OPINION—MR. STANBERY DENIES THE AUTHORSHIP.

On Friday a communication appeared in one of the city papers, arguing that the meeting of the Fortieth Congress prior to the first Monday in December was unconstitutional, being signed "H. S." The communication was, without other evidence than the initials, attributed to Henry Stanbery, Attorney General, and was so published in the newspapers here and elsewhere. In a letter which will be published to-morrow, Mr. Stanbery says he is not the author of the communication in question, nor did he ever see it until he read it in print.

MAJOR GENERALS MUSTERED OUT.

General Grant has issued a special order honorably mustering out of the service Major General Sickles and Brigadier General Scott. The order takes effect from the first of January:

"By direction of the President, the following named officers, being no longer needed, are hereby honorably mustered out of the service of the United States, to take effect January 1st, 1868: Maj. Gen. Daniel E. Sickles, United States Volunteers, Brig. Gen. R. K. Scott, Brevet Maj. Gen. United States Volunteers."

As General Sickles has been mustered out as a volunteer officer only, he retains his position as Colonel of the 44th United States Infantry.

FARRAGUT'S PORTRAIT.

It is understood that Page's painting of Admiral Farragut, lashed to the rigging of the flagship Hartford and directing the movements of the Union fleet under the fire of the forts in the harbor at Mobile, has been purchased for the Emperor of Russia at $20,000. The picture is now on exhibition at the artist's studio, in New York.

FINANCIAL MATTERS.

The fractional currency issued from the Printing Bureau for the week amounted to $470,000; shipped, $404,884, including $40,000 to the United States Depository at Pittsburgh, and $100,000 to the Treasurer at St. Louis. National Bank Currency issued, $118,580. Fractional currency redeemed and destroyed, $407,600.

THE MARYLAND INVESTIGATION.

The Judiciary Committee to-day examined several witnesses regarding the Government of Maryland, and then postponed further investigation of the subject until after the first week in the session, or the 25th of November. The time of the Committee will now be occupied with the impeachment investigation.

CONGRESSMEN ARRIVING.

The city is now daily filling with members of Congress, not a few of whom are securing permanent accommodations, as if looking to a protracted session.

INTERNAL REVENUE.

The receipts from Internal Revenue for the past week were two millions and fifty thousand dollars.

TIME EXTENDED.

The Commissioner General of the Land Office has assented to the desire of two hundred settlers on the Sioux reservation, in Minnesota, for an extension of time in which to pay their indebtedness to the Government for lands.

ALABAMA RECONSTRUCTION.

A special dispatch from Montgomery, Ala., dated 9 p. m. last night, says the Constitutional Convention adopted a resolution fixing adjournment for the 25th inst. This will allow the question of the ratification being decided before the end of the present year. The Committees on Executive, Judiciary and Militia, reported. The Judiciary recommend that all judicial offices, except Justice of the Peace and County Commissioners, shall be filled by the Governor, subject to confirmation by the Senate. The Militia Committee also recommend that all military officers be apppointed by the Governor, subject to confirmation by the Senate. None of the reports were acted upon. An ordinance proposing compensation to slaves for services from the date of the Emancipation Proclamation down to actual enfranchisement by the Union army, caused a good deal of excitement. Some delegates are determined to carry it and fix the compensation at the present rate of ten dollars per month. It is scarcely possible that so extensive a measure can pass the Convention, but it is quite likely some compensation will be voted.

FROM ALASKA.

Following is a copy of a telegram dated Victoria, V. I., Nov. 16, 1867:

To W. H. Seward, Secretary of State:

Reached Sitka 18th of October. Transfer made same day. Protocol executed October 26th. All well and all satisfactory. [Signed,]

LOVELL H. ROSSEAU.

TREASURY DECISION.

It is understood to be the decision of the Treasury Department that unless holders of Seven-Thirties shall present them for conversion into Five-Twenty bonds at maturity, the option to make such conversion is lost, and Seven-Thirties will afterwards be paid in greenbacks.

FIVE PER CENT. LOAN.

It is the impression of several members of the Finance Committee that a five per cent. loan bill will be passed during the coming session.

COMMITTED SUICIDE.

Charles Freeland, of New York, clerk of the Internal Revenue Department, committed suicide this evening, while laboring under a fit of temporary insanity.

[From our Regular Correspondent.]

Mr. Stevens—The Case of Col. Belger—The President's Speech—The Extra or Additional Session—Fitz John Porter's Case.

WASHINGTON, November 15, 1867.

The near approach of the session is bringing here many of the members. Among others, Mr. Stevens arrived two days ago quite exhausted by his ride and in a very low state of health. The fires of his intellect, however, yet burn as brightly as in other days. The spirit is still willing but the flesh is weak. Great numbers called upon the old man at his snug house on Capitol Hill, and he shook hands till he was nearly exhausted. Mr. Seward was among the callers, but coming as he did at a late hour in the day, it is reported that he failed to accomplish his object, as Mr. Stevens had retired. Those who had the pleasure of hearing his conversation will not soon forget it, (I mean Mr. Stevens') for he seems as full of faith and hope as when he was the champion of free schools in Pennsylvania, a score of years ago. The re-action manifest among the people is looked upon by him as quite natural—as always accompanying great movements; like the waves of the ocean which rise and sink along the shore, while the great tide steadily goes up, regardless of fluctuation. As to his health he remarked to an inquiring friend that "all the physicians agreed as to his case that he is suffering under an attack of old age, and that the malady is chronic." It would not seem possible that he will be able to attend the sessions of the House this winter, but he will be here to counsel and advise. Who his candidate for the Presidency is it remains yet to be seen, at least by your correspondent.

THE CASE OF COL. BELGER.

There has been much talk here of late, in all circles, in reference to the case of this officer, who was dismissed the service by order of President Lincoln, during the war, after his acquittal by a Court Martial. The present President appears to be making this case, like that of Fitz-John Porter, special, and wants the public to take notice that a new power reigns in Warsaw; that a great and magnanimous chief now rules in the Halls of Uncle Sam. It is sought to fix a stigma upon Mr. Stanton in connection with Belger's case, and in order that your readers may see just how the matter stands, and freely appreciate the difference and distance between then and now—only some four years by the almanac, but how long, measured by that *facilis descensus* of the poet—we will recall the facts briefly as may be.

In November, 1863, a Court Martial in the case of the above officer, at that time Chief Quartermaster at Baltimore, after trial for neglect of duty and fraudulent conduct in the hiring of transports and purchase of supplies, found him not guilty. But the Court placed upon the record as an explanation of their finding that:

"He had transacted a large amount of public business during the time covered by the specifications in chartering vessels and purchasing coal, and although in some instances he appears to have purchased coal at higher rates than the cash market prices, yet, considering the circumstances, especially the *kind of funds provided by the government for the payments he was required to make*, and the urgency of the orders under which he was frequently called upon to act, the Court attaches no criminality thereto, and has therefore made its findings in accordance with that judgment."

This remarkable "finding," with its codicil, coming for review to Mr. Stanton, he takes up the explanation of the Court and remarks thereon:

1st. That the large amount of public business referred to was for nearly a year confined exclusively to dealings with A. B. Hall and Coblens, and that in all the time he did not ask for assistance.

2d. That the "same instances" in which he appears to have purchased coal at *higher* rates than the cash market prices, are the transactions of a year, amounting to an aggregate of more than $100,000, in which he is proved to have paid forty and fifty per cent. more than Hall or Coblens paid for the coal to coal-dealers of the same city, who delivered it on board Government vessels by Hall or Coblens' orders.

3d. That Belger was provided with the same kind of funds paid by all other Quarter Masters for purchases for the Government.

The Court Martial having found that the accused chartered vessels and purchased coal at rates higher than cash market prices, and there being no other excuses proven or suggested than those mentioned, the Court practically negatived its finding on the charges and specifications. It was held by the Secretary that the evidence established the fact of dealings and transactions in which the government suffered loss from conduct which, to say the least, indicated gross negligence amounting to fraud. The proceedings of the Court were therefore disapproved and Col. Belger, by order of the President, dishonorably dismissed from the United States service.

It would seem sufficient to state the case to insure the concurrence of every honest man to the views so forcibly presented by the Secretary. In fact, probably such was the feeling until it became necessary to find or make a case against him at this time. Every place have eager eyes been searching, in the past two or three months, to ferret out some thing to impeach the integrity of the man who bore the weight of that war upon his shoulders. The search has been fruitless. As a last resort special cases are trumped up, in which personal animosities may be excited, and the public be brought to believe that official power was wantonly used to gratify a private grudge. Then, as an official, the great magnanimity of the President is paraded to the public view. Two years and a half has "Andrew the Merry" looked upon this gross injustice to Colonel Belger unmoved. At length his eye has turned upon the sufferer, and he lives. There is yet, however, a peradventure in the case. The President has annulled the order, which it was supposed left Col. B. just where he stood before the dismissal. This it was thought would not only blast Mr. Stanton, and blacken the memory of Mr. Lincoln, but also give Andrew great glory and Col. Belger—all his back pay. Here, however, steps in the War Department, in the shape of Gen. Grant, who decides that the place in the Q. M. Department occupied by Belger in 1863 is filled—in fact that in the rank which he held there is *no* vacancy. The property decreed by Presidential clemency to Belger is found in the hands of an innocent holder. As to what shall now be done, no man can decide but Binckley. A man in possession of his peculiar ability will make a way or find one—*aut veniam aut faciam*. Meantime, in looking over the whole case, thus faithfully copied from the record, do you not join with all your loyal readers in the plaudit to Secretary Stanton for his part in the matter of "well done good and faithful servant!" But let it be understood that the whole credit of the act is not Mr. Stanton's, for the order setting aside the action of the Court Martial was made to Mr. Stanton—he fully concurring—in the hand writing of President Lincoln himself.

THE PRESIDENT'S SPEECH.

The great effort of Wednesday night, which the telegraph has given you, when Mr. Johnson appeared before his friends and spoke his piece, you have, doubtless perused. That speech, of two fingers' length, doubtless cost great labor. It was read from manuscript, very closely, and with some difficulty. The light was not good—it was not "the light of other days"—and a pair of spectacles didn't seem to help him out. If you ever saw a turn out at "Duffy's Battery" after a hard day's election in the Third ward, then you know how "fine and hearty" a crowd heard the words of Presidential wisdom from the White House portico on Wednesday evening. By a most ludicrous blunder the band played with dolerous strain, as the President came forward, a snatch from the opera of the Bohemian Girl,

"With heart bowed down with grief and wo."

An officer of the regiment to which this band is attached asked the leader the next day how it happened that he did not strike up "Hail to the Chief." Honest Hans replied: "Dey rush me up and cry for someding, and I play jus ding I comes to first." The speech was a good one "considering and comparing."

THE EXTRA SESSION.

It has been held by all who have closely studied the President's downward career that he was prepared for any step however desperate that should bind to his car the Southern rebels and secure their votes for himself in the next election. This morning a labored article appears in the *Intelligencer* over the letters H. S.—Henry Stansbery, United States Attorney General, to prove that all the legislation of the extra session commencing with the 4th of March, 1867, as also the session of July last, and that which will commence on the 21st instant, and continue to the first Tuesday in December, is and will be of no effect, because the Constitution declares that "Congress shall meet on the first Monday in December, unless they shall by law appoint a different day," and that the act of January 22, 1867, did not appoint a different day, but provided for an "additional session." Let us suggest that the Constitution says Congress shall assemble *at least* once a year, clearly impyling more frequent meetings. But why argue? None so sharp as those who *will* see! The legislation of the additional session being declared unconstitutional, sweeps the field of obstructions.

FITZ JOHN.

This "brave" Lieutenant of McClellan, who objected to "going in there" at the second battle of Bull Run, "because there is fighting in that direction," is now here laying the track for a new trial. Binckley to the rescue! It is currently reported that he is of opinion and "has writ it down" that the Executive is competent to issue an order granting the trial anew as desired. VIATOR.

GEORGIA.

Result of the Election—Jury Challenged in U. S. Court.

[By Telegraph to the Pittsburgh Gazette.]

ATLANTA, November 16.—Official vote of Georgia: Number of registered voters, 188,647; vote cast 106,410; for Convention, 102,283; against, 4,127. Number of whites voting for the Convention, about 36,500.

SAVANNAH, November 16.—In the United States District Court, to-day, Judge Erskine presiding, Ex-Governor Brown, counsel for Hon. Foster Blodgett, objected, by way of challenge, to a large majority of the Grand Jury, on the ground of their inability to take the prescribed oath in the Act of Congress of June 17, 1862. The Court sustained the objection and directed the Marshal to impannel a new jury.

THE ROMAN QUESTION.

THE CONFERENCE PROPOSED BY FRANCE.

LONDON, November 16.—The Conference proposed by Emperor Napoleon for the settlement of the Roman question seems to be attended with difficulties. The Pope objects to any conference whatever, and the several powers which have been invited to participate are divided on the questions of a necessity for a conference. It is asserted that Spain is the only nation that supports the temporal power of the Pope in any event.

GREAT BRITAIN.

THE DANISH WEST INDIES.

LONDON, November 16.—It is now said the United States Government is to pay eleven and a half million dollars for the Danish West India Islands—St. Thomas, St. Johns, and Santa Cruz—subject to the claim of France on the last named of seven and a half million dollars.

THE CONDEMNED FENIANS.

MANCHESTER, Nov. 16.—It is thought the sentence of most of the Fenians who were recently convicted in this city by the Special Commission will be commuted to hard labor for a term of years, or banishment. Allen, however, whose offense was the worst, and presented firmest claims for mercy, will probably, for the sake of example, suffer the extreme penalty of the law on Nov. 23d.

FENIAN TRIALS AT DUBLIN.

DUBLIN, Nov. 16.—The Fenian trials are progressing in this city. The jury in the case of Costello last evening brought in a verdict of guilty. Costello and Halpin, who was convicted several days ago, will probably receive their sentence to-day.

DUBLIN, Nov. 16—*Evening*.—On the opening of court this morning, Warren and Halpin were sentenced to fifteen years' imprisonment. Costello was sentenced to twelve years.

SPEECHES BY FENIAN PRISONERS.

DUBLIN, November 17.—The Fenian prisoners, Halpin, Warren and Costello, when brought up before the Special Commission yesterday for the last time, to receive their sentences, were asked by the Court if they had anything to say why the penalty of the law should not be imposed in their cases. They replied by making strong speeches, in which they entered their protests against the jurisdiction of the Commission, denied the legality of their trial without a mixed jury, and claimed that as citizens of the United States they were entitled to the protection of the American Government.

NO HOPE FOR THE FENIANS.

LONDON, November 17.—The Manchester *Observer* says: "There is no hope of reprieve or commutation for Gould and Larham, and they will be executed with Allen on the 23d inst., according to the terms of their sentences."

THE WEST INDIES DISASTER.

The British Government has received from the West Indies no official advices of the submersion of the Island of Tortola, as reported here by a cable dispatch from New York.

FRANCE.

AMERICAN INVENTION ADOPTED.

PARIS, November 16.—Brown & Level's life saving tackle, an American invention for instantaneously lowering and detaching small boats from the side of vessels when under full headway, has been adopted by the French navy, after a trial by the French fleet at Toulon.

THE METEORIC SHOWER.

The meteoric shower on the night of the 13th and morning of the 14th, was very brilliant. Many thousands were visible, not only in the city, but throughout France. The usual records were made by Professors at the various observatories.

INTO WINTER QUARTERS.

PARIS, Nov. 17.—The troops of the French Expeditionary Corps, in Italy, are making preparations to go into winter quarters at Civita Vecchia.

COMMANDER CHANGED.

General Dumas has been appointed to succeed Marshal McMahon, Duke of Magenta, Governor General of Algeria, and Commander-in-Chief of the Seventh Army Corps.

TURKEY.

HOSTILITIES IN CANDIA RESUMED.

Late dispatches from Athens state that since the failure of the Turco-Cretan mission hostilities have been resumed in Candia.

ARRIVED OUT.

GLASGOW, November 17.—The steamship Columbia, from New York, arrived last evening.

FINANCIAL AND COMMERCIAL.

LONDON, Nov. 16—*Evening*.—American securities are firmer and in better demand, though prices are quotably unaltered.

ANTWERP, Nov. 16—*Evening*.—Petroleum dull and declined to 44½ francs.

FRANKFORT, Nov. 16—*Evening*.—Bonds closed at 75½.

MAINE.

Sleighing in Maine—Cold Weather—House Robbery.

BANGOR, Maine, Nov. 17.—Sleighs have appeared in our streets and the weather is exceedingly cold for the season. There is every indication to-night that navigation will close immediately, although many are hopeful that we shall have two or three weeks of moderate weather, and an open river, to commensurate for the cold snap we are now experiencing.

PORTLAND, Maine, Nov. 17.—The house of Henry R. White, corner of Congress and India streets, was, as he reports, robbed by burglars, last evening, of one thousand eight hundred dollars in gold, eight hundred dollars in silver, three hundred dollars in greenbacks, and other articles.

Railroad Accident—An Oil Train Takes Fire—Heavy Loss.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, November 17.—About one o'clock this morning an oil train near Cadicon station, Erie road, bound east, was run into by a freight train as it was being run upon a siding, disabling the locomotive of the freight train and demolishing some oil cars. The oil took fire and destroyed altogether twenty-one cars and a locomotive. The accident occurred on the down grade and it was impossible to remain on any of the cars that were behind the fire. No person was injured. The loss is very heavy. The passenger trains were detained eight hours and the passengers and baggage had to be transferred. The obstructions will be removed to-night so that trains can pass Monday morning.

Visited Governor's Island yesterday, and had a handsome reception by Gen. Wallen.

POLICE EXPENSE.

The expense of the Metropolitan Police for the ten months ending Nov. 1st, was $2,499,177.

ORDERED TO ST. LOUIS.

General Clark, who has had charge of the Subsistence Department here for the past three years, has been ordered to St. Louis, and will be succeeded by General Kilburn.

DISTILLERY UNEARTHED.

A large distillery was seized to-day, located under a fat-boiling establishment. It has been in existence a year undiscovered.

INCENDIARISM.

Mary Prucello was, to-day, committed for trial, charged with speculative incendiarism, by firing her store to secure a heavy insurance, while only a few hundred dollars' worth of goods were on the premises.

HEAVY LARCENY.

A warrant has been issued for the apprehension of Victor VanDevel, charged with grand larceny of silks, laces, velvets, satins, &c., valued at $70,000, from the dry goods store of Joseph R. Laurient, No. 654 Broadway, during August, September and October, where he was clerk. Henry C. Green, at whose house the stolen goods were stored, has been arrested.

MORTUARY.

The deaths in this city for the week were three hundred and thirty-nine.

JURY DISAGREE.

The West Virginia oil lands case, Dar. vs. Walker, resulted in a disagreement and discharge of the jury.

VARIOUS ITEMS.

A battalion of the Seventh Infantry sailed to-day for Savannah.

Three hundred and seventy-five barrels of whiskey were seized to-day; also a distillery in Brooklyn.

Several very important papers relating to the pending whiskey cases have disappeared mysteriously from the prosecuting attorney's office.

Kate Arnold was arrested to-day, charged with stealing three thousand dollars from Pascal Sandy, a Costa Rican.

ST. LOUIS.

A Prominent Lawyer Shot by the Friend of His Divorced Wife—Pawnbroker Convicted of Receiving Stolen Goods—Two Cases of Trychina.

[By Telegraph to the Pittsburgh Gazette.]

ST. LOUIS, November 16.—Seymour Vaullaire, a prominent criminal lawyer of this city, formerly Circuit Attorney, was shot last night by Isaac M. Ruth, a clerk in the postoffice. The affair grew out of the unhappy relations between Vaullaire and his wife, resulting in divorce from her last week, Ruth being her most important witness. Yesterday Voullaire and Ruth met in the postoffice, an angry altercation ensued, and Vaullaire threatened to shoot Ruth the first time he should meet him on the street. Last night Ruth accompanied the divorced wife to the theatre, and when returning home were met by Vaullaire, who fired at Ruth, missing him. Ruth returned the fire, the ball entering Vaullaire's right breast, near the nipple, lodging against the shoulder blade, inflicting a dangerous wound, and he now lies in a critical condition. Ruth gave himself up and was released on bail. The affair created a great sensation, all the parties having occupied highly respectable positions in society.

Abraham Abrahams, a prominent and wealthy pawnbroker, was convicted to-day of having received stolen goods, and sentenced to two years in the penitentiary.

Two clearly defined cases of trychina died in the city hospital last night. A *post mortem* examination was made, and at a meeting of the Medical Society this evening the muscles of the men were shown, which contained ciscus in great numbers. One of the men had been treated for consumption, the other for typhoid fever.

It is now stated that no extra session of the Missouri Legislature will be called by Gov. Fletcher.

Arrival of Senor Romero—Santa Anna's Court Martial Imprisoned—Commutation of Punishments by Juarez.

[By Telegraph to the Pittsburgh Gazette.]

HAVANA, November 17.—Advices from Vera Cruz announce the arrival there, on the 4th inst., of the United States revenue cutter Wilderness, with Senor Romero and his party. The cutter received a national salute from the fort. Senor Romero left for the capital on the 11th inst. The Wilderness had a very rough passage, was badly strained and lost her funnel in a gale. She was being repaired, and was nearly ready to sail for New Orleans.

All the members of the Court Martial which tried Santa Anna, with the exception of prosecutor, have been sentenced to six months imprisonment for the mildness of their verdict, and have already been incarcerated in fortress San Juan D'Ulloa.

On the 30th ult. President Juarez commuted the sentences of Imperialist Generals and Colonels, both native and foreign, to four years imprisonment, field and staff officers to one year, and line officers two years and surveillance of the police. Other foreign adherents of the empire, including soldiers who served in the Imperial forces, are ordered to leave the republic. Higher civil officers are sentenced to banishment, and lesser officers to imprisonment and surveillance of the police.

BUFFALO, N. Y.

Propeller Burned—Heavy Loss.

[By Telegraph to the Pittsburgh Gazette.]

BUFFALO, Nov. 17.—The propeller Antwerp, with a cargo of 17,000 bushels of wheat and 600 barrels of flour, caught fire at noon to-day, in front of Reed's elevator, and burned to the water's edge. The vessel was owned by Lathrop & Co., of Racine, Wis., and valued at $50,000; insured for $44,000. The cargo was valued at $100,000; insured for $50,000. The vessel arrived at five o'clock this morning and had discharged a portion of her miscellaneous cargo. The fire is supposed to have originated near the boilers. The shipping and elevators in the vicinity of the burning vessel were at one time in great danger.

Locomotive Explosion—Engineer and Fireman Killed.

[By Telegraph to the Pittsburgh Gazette.]

BINGHAMPTON, Nov. 16.—A terrible accident occurred in this city this morning. The freight engine Tioaghinaga, of the Syracuse, Binghampton and New York Railroad, exploded its boiler at half past four o'clock, tearing the engine into fragments and instantly killing the engineer and fireman, the former named Edward Canton and the latter Wm. Rose, both of Syracuse. The bodies of the men were found against the woodpile in the tender with both their heads torn off. Mr. Canton's head was torn from his body, leaving only a tuft of his side whiskers, his jaw and upper end of his spinal column protroding from the back of his throat. Mr. Rose was struck in the forehead by a piece of the boiler and the top of his skull cut completely off. Upon removing the victims from the engine, a hot iron from some portion of the fixture was found in the breast of Mr. Rose, burning his flesh. A large piece of the boiler, weighing one hundred and fifty pounds, was hurled about twenty rods from the place of starting. Another piece cut a limb three inches thick, from a pine tree ten rods beyond. Another, weighing about sixty pounds, was found forty rods distant. The explosion was heard and felt five miles from the city.

The Kansas Election.

[By Telegraph to the Pittsburgh Gazette.]

LEAVENWORTH, Nov. 16.—Eighty-three representative districts in this State elect twenty-two Democrats. The remainder are Republicans and Independents. Forty counties give the following result: For negro suffrage, 7,591; against, 16,114; for female suffrage, 6,670; against, 16,362; for disfranchising disloyalists, 11,390; against, 10,268.

—Later advices from Porto Rico say the late tempest was more severe than the two terrible gales which visited the ill-fated island previous to 1859. All the towns have been terribly desolated; one thousand houses have been laid in ruins, and three thousand have been severely damaged. Some of the houses along entire streets have been demolished and the roadway entirely hidden by the ruins. No news whatever has been received regarding the effect of the storm in the central portion of the island. The loss is incalculable. The merchants of the island have demanded that flour, corn, provisions, &c, shall be entered duty free. Every living thing, man or animal, upon the island of Tortola perished.

CITY AND SUBURBAN.

Labor Reform Meeting—Reception of Hon. Samuel Carey, at Lafayette Hall—Speeches, &c.

Pursuant to a call of the Executive Committee of the Labor Reform party of this city and vicinity, a meeting was held at Lafayette Hall Saturday evening, for the purpose of extending a welcome to Hon. Samuel Carey, member elect from the Second Congressional District of Ohio, who is *en route* for Washington City to take his seat at the ensuing session of Congress. The Washington Cornet Band was in attendance, and at eight o'clock in the evening a very respectable crowd was assembled. The meeting was organized by calling Thos. A. Armstrong to the chair, supported by a number of Vice Presidents and Secretaries.

The chairman, after thanking the meeting for the honor conferred upon him in selecting him to preside over the meeting, introduced George Baber, Esq., of the *Evening Advocate*, who delivered the Address of Welcome. His remarks were well chosen, and were delivered in an eloquent and forcible manner.

HON. SAMUEL CAREY'S REPLY.

Mr. Carey said that he was pleased to come to this city of work shops, and was certainly flattered by this mark of respect on the part of the working men of Pittsburgh. He claimed no such merits as attributed to him by the gentleman who had just spoken. But his success only served to show what workingmen could do when they went to work in the proper way. He had been elected by what was termed the "Tin Bucket Brigade." The boys who went to their work daily with their dinners in tin buckets had elected him to represent them in Congress. He had always in his humble way worked to alleviate the condition of the laboring classes. The legislation of all countries has ever been in the interest of capital and against labor. Ever since it was said to Adam in the garden of Eden, "by the sweat of thy brow," &c., there had been a continual effort by all men to eat their bread by the sweat of some one else's brow. He believed that the late civil war was a conflict between labor and capital. It had been and would be attributed to various causes, but the attempt to oppose the laboring classes was the true cause. Labor, he said, was necessary to physical development, and in order for man to be great intellectually, he must work. God himself was at labor, and set his seal of approval upon it. All the great men who have left the foot prints upon the sands of time, he said, were the children of poverty. Even in our country, a score of great and good men could not be named who had not been laboring men. Ben. Franklin was the sixteenth child of a family of seventeen children—son of a soap and candle maker. Washington was a laborer. Webster was raised a poor boy on a poor farm. Examine any of the eminent divines or statesmen and we would find they had been sons of toil. We have progressed further in the last half century than we did in the whole six thousand years preceding it, because of our efforts to educate the laborer. The only way to advance society was to educate the laborer. Inventions were the result of educated labor. The laborers want time for study, time for improvement. The burthens were unequal on capital and labor. We want some system by which labor shall have its fair share of the product, and not have it all paid to capital. He approved the granting of public lands to capitalists. A land monopoly, he said, was the worst monopoly in God's world.

Another important question was to equalize the public debt—let capital be taxed as well as labor. He was opposed to repudiation. The public debt, he said, must be paid if it takes every cent within the country. He said the five-twenties were not stipulated to be paid in gold, but in the lawful money of the country. The greenbacks were the legal money of the country, and if it was good enough for the laborers it was good enough for the bondholders. He advocated the withdrawal of the national currency and the issuing of greenbacks, with which the five-twenty bonds should be redeemed, and thus we would be relieved of an interest bearing debt. We should have a thousand millions of currency, and we have now but six hundred millions. The one-half of the property in the United States was now owned by five per cent of the people.

After some further remarks in regard to the finances of the country and the question of paying the national debt, his elucidation of which was clear and able, he again thanked the meeting for the mark of respect shown him, when the meeting adjourned.

The State Normal School for the District Comprising Allegheny, Butler and Beaver Counties—A Generous Proposition

There was enacted by the State Legislature, in 1857, a law dividing the State into twelve educational districts, and contemplating the establishment of a Normal School in each, to be supported as a State Institution, and having for its object the thorough and complete instruction of those who may choose teaching as a profession for life. Under the provisions of the law there have already been four such schools established, viz: One at Mellersville, Lancaster county; one at Edinboro, Erie county; one at Mansfield, Tioga county, and one at Kutztown, Berks county. The law requires that before such schools are recognized as State Institutions, the projectors must furnish sufficient capital for the purchase of ten acres of ground, and a suitable building with accommodations for the boarding and instruction of at least three hundred scholars, and which must also contain a hall large enough to accommodate one thousand persons. In his last report, the State Superintendent of Public Schools stated that the policy the State has pursued towards these institutions, is to grant to each, at intervals, $15,000 00, to be used in purchasing ground and erecting and furnishing buildings, and after the schools had gone fairly into operation, to allow, under certain conditions, to each pupil desiging to become a teacher, fifty cents per week, and to all graduates pledging themselves to teach two full years in the common schools of the State, fifty dollars. Under this arrangement, pupils entering one of the State Normal schools, and being prepared to take up the studies of the Normal course proper, receive *ninety-two* dollars from the State, a sum more than equivalent to the average cost of tuition in these schools when paid by the pupils themselves. Disabled soldiers or sailors, or orphan children, whose fathers lost their lives in the service of the country, receive twice as much per week as ordinary students.

The district in which our readers are more immediately interested is composed of Allegheny, Butler and Beavor counties. It has long been decided to establish, under the provisions of the law, a State Normal School in this district, and the proper committee is now examining into the sites for the location which claim attention. The following gentlemen constitute the committee: Messrs J. W. F. White, Sewickley; J. B. Lyons, East Liberty; James Kelly, Wilkinsburg, Col. William Espy, Scott, and Prof. A. T. Douthett, Superintendent of Allegheny County Public Schools. At a meeting of the committee, held on Saturday, a very magnanimous proposition was made by Col. William Espy, who deservedly ranks high among the public spirited citizens of this end of the State. He offers to donate for the site of the buildings six acres of ground in Scott township, and further guarantees a subscription of twenty thousand dollars towards the erection of the school. This site is all that could be desired, possessing advantages in point of location, general beauty and adaptability over any yet suggested. The Committee will further consider the proposition at the next meeting, which will be held at the Public School House, Turtle Creek, on Monday next, at which time and place other proposals will receive proper attention.

Fatal Accident.

A distressing accident occurred on the Pennsylvania Railroad, between Derry and Conemaugh Stations, on Friday night, between nine and ten o'clock, which resulted in the death of Charles Ihmson, who resided on Penn street, in the Ninth ward. The deceased was a brakeman on the road, and on the evening of his death was on the second through freight train bound east. How the accident happened is not precisely known. The last seen of Ihmson alive was shortly after nine o'clock, when he assisted in coupling a car to the train, after which he got on board and the train left the station. When it had proceeded almost to Conemaugh, the conductor missed Ihmson, and upon returning to look for him found him a short distance back in a dying condition, the train having passed over his right leg, near the hip joint, crushing the bones and mutilating his body frightfully. He was immediately conveyed to a house near at hand, and put aboard the first train going west, but died before reaching the city. The deceased was a married man, about forty years of age and leaves a widow and eight children.

The Delegate Elections.

Elections were held by the Republicans in the different city districts, on Saturday, for delegates to the Convention called to place in nomination candidates for Mayor, Controller and Treasurer, to be voted for at the election on the second Tuesday of December. The contest for Mayor was so exciting that but little was heard of the candidates for Controller and Treasurer. The contestants are: For Mayor, W. C. McCarthy, present incumbent, Charles Jeremy, of the Sixth ward, and J. W. Riddell, of the Lawrenceville district; for Controller, John McCargo, present incumbent, and R. J. McGowin, of the Fifth ward; for Treasurer, Samuel Allinder, the present incumbent, seems to be the only candidate.

The following delegates were chosen:

First ward—John Fitzsimmons and Frederick Schild; for McCarthy.

Second ward—T. W. Davis and Edw. House; for McCarthy.

Third ward—In this district the election was broken up in a row. When about sixty votes had been polled, a man named John Robinson, in an intoxicated state, appeared at the polls and made an effort to seize the ballot box, after which there was no more voting. The delegates running were: For McCarthy, A. G. Neiper, Joseph Heastings; for Jeremy, A. J. Kemp, M. Faas; for Riddell, John Robinson, Joseph Armstrong. It will be for the Convention to decide which "set" are entitled to admission.

Fourth—William W. Speer and Dr. T. W. Shaw; for Riddell.

Fifth—First Precinct—Charles Beck and John Steele; for McCarthy. Second Precinct—Joseph Irwin and Richard Thompson; for Jeremy.

Sixth—First Precinct—Joseph A. Butler and Samuel McIlheny; for Jeremy. Second Precinct—John Wallace and Wm. Shore, jr.; for Jeremy.

Seventh—Stewart Dalzell and James Sleith; for McCarthy.

Eighth—James Richardson and Henry Tatnell; for Jeremy.

Ninth—James Lewis and Arthur Meckling; for Jeremy.

Tenth—David Sims and Wm. Simpson; for Riddell.

Lawrenceville—First ward—Dr. J. H. Robinson, for McCarthy; and Charles A. Dravo, for Riddell. Second ward—C. North and Wm. Wilson; for Jeremy.

Peebles—Joseph G. Beales and James McKebbin; for McCarthy.

Collins—First Precinct—B. W. Morgan and Thomas Black; for McCarthy. Second Precinct—David Holmes and David Kirk; for Riddell.

Oakland—James Gray and James Martin; for McCarthy.

Liberty—John R. Baum and Wm. Irwin; for Jeremy.

Pitt—E. P. Jones and James Hunter; for Jeremy.

The result as to the Mayoralty is summed up thus, Third ward omitted:

The Convention will meet at ten o'clock this forenoon in the Council Chambers.

Teachers' Association of Western Pennsylvania — Regular Monthly Meeting.

The Western Pennsylvania Teachers' Association held its regular monthly meeting in the Fourth ward School House. The first session was held Friday evening. The meeting was called to order at seven o'clock by C. A. Chamberlain, Chairman, and opened with prayer by Prof. G. A. Lucky, after which the choir sung a beautiful hymn commencing

"Teach me the Way, &c."

The Salutatory Address was then delivered by Prof. H. J. Gourley.

The following question was then read: "Should the Directors appointed by law to each School District in the State be reduced in number, and a higher grade of qualifications be required of them by law?"

The discussion was opened by Mr. Chamberlain. Messrs. McCormick, Lucky, Douthett and Carey followed, after which Mr. Chamberlain closed the debate, and the Association took a recess of five minutes.

Business was resumed, and the choir favored the Association with a beautiful song, which was followed by an address by Rev. Joseph R. Kerr, on the duties which education involves. The theme was handled in an able and eloquent manner. A song was then sung by the choir, after which Mr. Cury urged upon those present the importance of attending the meetings of the Association.

A metrical criticism by Miss Jennie Smith was then read, after which the meeting adjourned to meet at ten o'clock Saturday morning.

SATURDAY MORNING'S SESSION.

The second session of the Association was called to order at ten o'clock Saturday morning, by the Chairman, and opened with prayer by Mr. Campbell, after which the choir sung a beautiful hymn.

Mr. James Boggs, of Spring Garden Schools, next entertained the Association with a short reading from "The downfall of Poland."

W. P. Montgomery, of Brownstown, delivered a short lecture on Penmanship. He said that no one of the branches taught in Common Schools was as important as penmanship. A subject of so great practical advantage, he said, should command the greatest attention in every school, yet in many instances it was sadly neglected. In addition to its general usefulness, penmanship is a great accomplishment, and very justly classed among the fine arts. Practice, he said, was most essential, and he believed that teachers could keep their scholars at practice daily with very little trouble. He thought the excuse of "want of time," on the part of the teacher a very poor one. After some further remarks, in which he referred to the general usefulness of the art, he closed his remarks.

The question for discussion, "Should that portion of the recent supplement to the School Law of Pennsylvania, which provides for the granting of permanent certificates, be repealed?" was then taken up.

Mr. Carey, in the absence of Mr. J. P. Anderson, who had been appointed to open the discussion, stated the question.

According to the supplement he said that County Superintendents were authorized to give permanent certificates, which allow the holders thereof to go from one county to another. He objected to it on the ground that it had a tendency to bring teachers from other districts where wages were lower, and, as a consequence the grade of teachers lower, to districts where a higher grade existed and better wages were paid, and thus by competition bring down the wages.

Mr. S Patterson, of Washington county, thought the supplement a very good thing for teachers. He did not think it should be repealed until it had been finally tried. He said the law had been framed by the best teachers in the State and was certainly entitled to a trial. It would soon be in full operation and he had no fears of its working well.

Mr. Carey then took the floor, and spoke a few minutes on the affirmative side of the question, and was followed by Mr. C. A Chamberlain, who also favored the repeal of the law.

At the conclusion of the debate a recess was taken, after which the choir favored the Association with—

"Hail, hail happy day."

The question next in order for discussion, "Does the method of finding the percentage of attendance given in the Teachers' Monthly Report presented by the School Department truly exhibit the pupil's punctuality?"

Affirmative, J. M. Logan; Negative, G. A. Luckey.

A metrical criticism was read by Miss Jennie Smith, after which a vote of thanks was returned to the critique, and also to the reporters of the press.

The Association then adjourned.

Attempt to Break Jail.

Hiram Dailey and John Burns, prisoners in the county jail, attempted to escape Saturday evening, by working their way through the walls, but through the vigilance of Warden White and Mr. Smith, Assistant Warden, their work was detected and the plan frustrated. Dailey and Burns were confined in cell No. 33, and their plan was to work through the partition wall separating them from 32, from which they could reach No. 31, the cell from which two men escaped last week. They had succeeded in removing the plastering and a portion of the brick, which they attempted to hide by pasting paper over the wall where they had been at work. As soon as the discovery was made they were removed to another cell on the opposite side of the building, where they will be closely watched.

Pickpockets on a Train.

When the train on the Fort Wayne and Chicago road, which left this city on Friday afternoon, reached Crestline, it stopped for supper, as usual. As soon as supper was over a gang of pickpockets entered the cars. Three or four of them entered the forward coach, and in peremptory tones ordered the occupants of it to take the hindmost coach, as that one would be left. Simultaneously, another portion of the gang entered the hindmost car, and ordered them to take seats in the forward car, as that one was to be detained. Instantly there was a general movement of the passengers who at once found the aisles blocked by persons who did not want to move. An experienced traveler immediately gave loud warning that pickpockets were on board. The admonition came to late too save one man, who lost his wallet containing one hundred dollars. Meanwhile the train started, but neither conductor, brakeman or any other employe of the company took any notice of the disturbance.

At the next stopping place beyond, a plain farmer from Erie was standing at a door of one of the cars, looking out on the platform, when one of the gang came out of the next car, and inquired if he was going to Chicago. The farmer replied that he was. The fellow then explained that he was a Chicago merchant, and had bought a lot of merchandize at that station, exhausting his money so that he could not pay his freight in advance, which was demanded of him. He had a check for eight hundred and fifty dollars on a Chicago bank, on which he wanted the farmer to advance him fifty dollars. At this point another man issued upon the platform from the car the fellow came out of, and wanted to know if he had raised the money, otherwise the goods would not go up on that train. The fellow fiercely demanded that the farmer show his pocket book, to test whether or not he could advance the money. Hereat the farmer took the hint and withdrew to his seat.

At the next stopping place the pickpockets left the train, undisturbed by any one, and went on their way.

A False Rumor.

It was reported on Saturday that four prisoners had escaped from the Western Penitentiary on the day previous, but on investigating the rumor we find that it is false and without the slightest foundation, as no attempt to escape has been made from that institution since that of Monday, an account of which we published Saturday. Reports of this character have been circulated formerly, and it appears have all been traced to one source, which, to say the least of it, is unreliable. The public, not knowing from what source these reports originate, and hearing no denial, of course believe them, and are thus led into error. Having taken the trouble to make inquiry as to the cause of these reports, we find that sometime during last spring an employee of the establishment was discharged for neglect of duty, since when a number of false statements in relation to the management of the institution have been put in circulation, every one of which are clearly traceable to him. Feeling sore at the loss of a good situation, for which he has himself alone to blame, he resorts to this cowardly method of obtaining revenge. Such conduct is mean and contemptible in the extreme; it can in no way benefit the party engaged in it, as the injury done to those it is intended to effect is but temporary, and ceases to exist when the truth is made known. The records of the institution will at all times show whether any escapes have occurred and they are the *best* and *only* evidence to be obtained in regard to the matter. Notwithstanding the various reports relating to the management of the prison, the authorities having the right to investigate are satisfied with the present Warden, which is *prima facie* evidence, at least, that they are without foundation.

Lamp Explosion in a Street Car.

A scene of wild confusion was created in a Manchester street car yesterday evening, by the explosion of a kerosene lamp. About six o'clock in the evening a car was passing down Federal street, filled with ladies, and when near the railroad crossing, the lamp used for lighting the car, which had been lighted at Manchester before leaving the station, exploded with a loud report, scattering fragments of the lamp and burning oil throughout the car and upon the passengers. A general rush was made for the doors, but the horses having taken fright at the explosion, which was only increased by the screams of the lady passengers and the glare of the burning oil behind them, became unruly and for a time baffled all efforts of the driver to check them. They were finally stopped, and the frightened passengers were not long in getting out, but by this time the danger was all over, as the oil had been consumed, and what little fire remained was easily extinguished. The extent of the damage was the soiling of a few fine dresses, the destruction of a bonnet, and the disarrangement of several "water falls." No lives lost, nor was any one seriously injured.

Serious Accident.

John Rider, a resident of Manchester, drayman for McCullough, Smith & Co., corner Penn and Irwin streets, was seriously injured Thursday evening last on the Fort Wayne and Chicago Railroad at Manchester. Mr. R. got aboard the train at the Union Depot to ride home, and, it is supposed, attempted to jump off near his residence while the train was in motion, when he was thrown violently against the rail of the side track, cutting his face in a frightful manner. His lip was severely cut and bruised, and his jawbone so injured as to render it impossible for him to speak, consequently he has not been able to tell how the accident occurred, and no one having seen it, the manner of its occurrence is not exactly known. He was slowly recovering at last accounts.

Attempted Suicide.—Mr. Evanspar, one of the employees at the cattle yards at East Liberty, attempted to commit suicide by shooting himself Saturday evening. The ball entered the right side of his neck and came out under the left ear. He was discovered shortly afterward, and a physician summoned to attend to his injuries. He informed the physician that he had done it intentionally, and was sorry the shot had not proved fatal. His injuries are not thought to be of a serious nature. Domestic trouble is supposed to have been the cause.

Mr. Murdoch.—Our readers will remember that Mr. James E. Murdoch, the great actor, elocutionist and reader, will entertain an audience with selections from the poets, to-morrow evening at the Academy of Music, under the auspices of the Young Men's Mercantile Library Association. In order to avoid confusion, cards of admission will be sold to-day and to-morrow at the Library rooms. There will be no reserved seats. Mr. Murdoch will give his second reading on Thursday night.

Union Depot Hotel.—By reference to our new advertisements in to-day's paper it will be seen that the Union Depot, of this city, is offered to be leased to a first-class landlord. The house is one of the best in the west, and is now doing a good business. For particulars see advertisement.

Mansion and Grounds near Pennsylvania Avenue.—The handsomely situated mansion of F. G. Schenck, Esq., immediately opposite Madison street, which leads from Pennsylvania Avenue, near Soho bridge, is to be sold on the premises to-morrow afternoon, by A. McIlwaine, Auctioneer. Particulars are given in the advertisement under auction head. The convenient distance from business, and the beautiful views commanded by this situation, make it a very desirable property.

Superior Furniture at auction, on Wednesday, November 20th, at 9 o'clock a. m., at the residence of Walter Bryant, Esq., on North Canal street, between Chestnut street and Madison avenue, Allegheny. See advertisement of Smithson, Palmer & Co., auctioneers.

Attention:—This day, at 2 o'clock, on the premises, will be sold the valuable lot of ground and building on the corner of Market and Fourth streets, at present occupied by the Union National Bank. See advertisement of Smithson, Palmer & Co., auctioneers.

Rev. P. S. Davis will deliver a free lecture to-night, in the Methodist Church, East Birmingham, under the auspices of the Friendship Lodge of Good Templars. All are invited.

The warehouse and lot of ground No. 27 Irwin street, was sold at auction on Saturday last, by Smithson, Palmer & Co., Auctioneers, for $11,950, to H. L. McCullough, Esq.

1786. PROSPECTUS. 1868.

THE PITTSBURGH GAZETTE

The largest daily paper in the State of Pennsylvania, enters the 82nd year of its existence with increased facilities for disseminating the current news of the day, and for rendering good political service in the important Presidential Canvass of 1868. The forthcoming session of Congress promises to prove one of the most important held since the formation of the Government, and the proceedings will be anxiously watched by the intelligent masses. In view of the deep interest centered in the proceedings, the proprietors of the GAZETTE have made arrangements for daily dispatches and letters during the session, from a highly intelligent correspondent, who enjoys the confidence and friendship of the leading members of the Senate and House, the heads of the various Departments, and the leading politicians who frequent Washington, so that readers can depend on receiving the first, fullest and most reliable intelligence from the seat of Government.

The proceedings of the State Legislature, at its forthcoming session, will also prove interesting, inasmuch as many questions of importance will come up for legislation. The GAZETTE will keep at the State Capital, during the entire session, an intelligent and faithful correspondent, who will promptly report the proceedings by mail and telegraph.

It is the only political journal of Pittsburgh which faithfully reflects and steadily advocates the principles held by the Union Republican Party, and interpreted by a loyal Congress.

It gives as much reading matter as any paper sold at twelve dollars per annum, while its price is but eight, being the cheapest as well as the largest newspaper in the Commonwealth.

With the enlargement, every department has been strengthened. The high character of its editorial columns will be maintained, and all questions of public importance will be fearlessly discussed.

The news department will be kept up to the requirements of the day, and in condensed items will faithfully mirror all the transactions worthy of note of the City, State, Country and world at large, and maintain for the GAZETTE the reputation of a live, enterprising and first class family and commercial newspaper.

Ample space has been reserved for market reports which can at all times be relied upon as correct, as the current quotations for manufactures, farm products, cattle, &c., &c., are daily gathered from actual sales, by faithful and efficient reporters.

The river news is collected with care, and will prove a very interesting feature of the GAZETTE.

The financial news department has been placed in charge of an able and experienced banker, who will render it quite an attractive and useful specialty to bankers, brokers and business men generally.

The religious department will receive the attention due its importance, and will be so conducted as to be pleasing and readable to members of all religious denominations.

The agricultural, art, science, literary, personal and other departments of the paper will be conducted in a manner which will prove satisfactory to the reader.

TERMS OF THE DAILY GAZETTE.

Three Months	$2.00.
Six Months	4.00.
One Year	8.00.

Delivered in Pittsburgh, Allegheny and all the adjacent Boroughs for 15 cents per week, payable to Carriers.

THE WEEKLY GAZETTE.

The WEEKLY GAZETTE has been enlarged to the same size as the Daily, and is now the largest, cheapest and best weekly family newspaper in the State. It should be in the house of every farmer, mechanic and business man. It gives each week forty solid columns of current news by telegraph and mail, the leading editorials of the daily, and a choice selection of literary and scientific items, together with everything important pertaining to the world of politics. Its agricultural columns will be edited in such a manner as to find favor with the farmer and gardener. The market reports of the WEEKLY GAZETTE are by common consent acknowledged to be the standard authority for both buyers and sellers, and in commercial circles in Western Pennsylvania, Eastern Ohio and Western Virginia are without equal. The files of the GAZETTE are used exclusively by the Civil Courts of Allegheny county, as reference in important issues, to determine the ruling prices in the markets at the time of the business transaction in dispute.

Our Agents will favor us by getting up their clubs at once, and not allowing their present ones to expire, as we are anxious that none of our readers should be deprived of a week's news. Additions to clubs can be made at any time, at yearly rates. Postmasters and Merchants are requested to act as Agents.

TERMS OF THE WEEKLY GAZETTE.

Single Subscriber	$1 50.
Clubs of Five	1 25.
Clubs of Ten	1.15.

—and one to the getter up the club.

The Pittsburgh Gazette

MONDAY, NOVEMBER 18, 1867.

THE day is not far distant when the country will be called to mourn the death of the great old Commoner, Thad. Stevens. He is rapidly tottering graveward, and his friends fear to hope that he will survive through the coming winter.

THE President is still fretting over the fact that a few hundred blacks of Washington hold fire arms in their possession and have formed themselves into military companies. The country can hardly be in much danger from the existence of negro soldier companies, and the President's exhibition of alarm and cowardice is unpardonable.

IT APPEARS that neither the government nor Mr. Davis are ready to proceed with his trial. The reason assigned is a desire on both sides that Chief Justice Chase shall preside. The public will not be surprised finally to learn that the case has been dropped, and that Mr. Davis was held a prisoner of state for two years in order to save him from punishment.

THAT Mrs. Lincoln is not entitled to charity is daily becoming more apparent. Her recent strange conduct in endeavoring to foist herself on the charitable and patriotic people of the north is all the more unaccountable since the administrator of her husband has announced a final settlement of the estate. After paying all the debts there remained $110,294 62, which, divided among the widow and heirs, gives $36,765 30 to Mrs. Lincoln, and the same amount to each son. Robert T. Lincoln has received his share and also that of the minor heir, Thomas (Tad). The amount due Mrs. Lincoln, less about $4,000, heretofore drawn, is subject to her order. It also appears that she received the $25,000 voted by Congress, and contributions from other sources, of which M. O. Roberts, of New York, gave $10,000. In addition to these sums, she has the property she recently offered to sell, valued at $24,000.

TAXATION AND CURRENCY.

That a wide diversity of opinion exists throughout the entire country as to the adjustment of the Excise duties and the regulation of the Currency is palpable even to the dullest observation. This contrariety of sides is not limited to persons engaged in ordinary business pursuits, but pervades as absolutely those classes whose employments have led them to give the severest study to these questions. Indeed, the very doctors of finance are more completely at loggerheads in their theories and plans than the individuals who make no pretensions to a thorough understanding of the principles involved; and this confusion among them is aggravated by the display of an intolerable dogmatism.

It seems probable, therefore, that the approaching session of Congress will witness an obstinate struggle upon financial questions—that is, upon internal taxation, the imposition of imposts, the general management of the Treasury Department, the national liabilities, the banks and the currency, contraction, inflation and specie payments. Of course, vast pecuniary interests are intimately involved in this struggle. Men identified peculiarly with each of these special interests will besiege Congress, desiring to influence its action in such a manner as to secure exemption from burdens and facilities for enterprise. The contest will not be to see how best the common welfare may be promoted; but to what extent each interest can succeed in delivering itself from encumbrances. A policy more short-sighted than this cannot be imagined. All the real interests of the nation are bound together so closely that in the long run what is best for one is best for all. Temporary advantages may be gained by particular individuals engaged in special callings, by partial enactments, but these cannot be rendered permanent.

Many of those who abjure legitimate business callings, and make a trade of politics, will contribute all they can to make bad worse. The tendency is almost universal to attribute a stagnation of business, a cessation of customary employments, a pinch in the money market, or a financial crash, to the political party having the largest share in directing the course of the government. It sometimes happens that such incrimination is reasonable and just; but it is more frequently the case that business or monetary embarrassments arise out of causes over which government has no control, and for which it is simply absurd to endeavor to make it responsible. The origins of financial crises are commonly as obscure and undefinable as the causes and spread of epidemics. Financial panics and catastrophies oftenest come from general derangements in which considerable proportions of the active business men of a nation, or of several nations, are involved. A feeling of distrust pervades all classes, like an atmosphere. It grows out of multiplied consciousnesses that affairs are not sound at bottom, and that a remedy can be found only in a kind of commercial insurrection, in which the sanctity of contracts and the obligations of honor are contemned and repudiated. In some cases, what may be called a species of universal amnesty follows, in the form of compromises, wiping out old indebtednesses, and then a fresh start is taken.

The Republicans, though they have had no sort of control of the Executive Department under the existing Administration, are in a condition to be held largely responsible for the governmental management. A serious shock to commercial prosperity—a paralysis to domestic industry—any disturbance of the easy and natural flow of business—can be used effectively for their disparagement with those who are not habituated to discriminating wisely. Such Democrats as have no craft but politics know this; and hence they are eager for hard times until the presidential election shall be over. It does not matter a straw to them how much inconvenience or actual suffering is brought upon the people, so that their party is not held responsible, and they are thus enabled to reap a political advantage. These are genuine soldiers of fortune, who care nothing for any cause, but only for what they can make out of it.

Republican politicians, on the contrary, are deeply solicitous that measures should be devised, if possible, to afford financial relief, to quicken trade, to stimulate productive industry. Their political chances will be improved if the times can be made prosperous.

Between the conflicting ambitions and interests of different sets of politicians, and the want of agreement among business men, as to the course which it is best should be adopted in dealing with the public questions under consideration, Congress will be greatly divided and perplexed. Necessarily it will mirror all the antagonisms existing in the community. If sagacious business men were in unison as to their views the case would be comparatively easy; but they are hopelessly divided, and will demand an agreement on the part of Congressmen of which they do not furnish an example in their own persons. We apprehend, therefore, that the discussion will be earnest and protracted; and indulge the hope that it may result in so sifting fact from fallacy, that the path of wisdom shall be distinctly seen and followed with the common consent of practical men.

THE PUEBLAS OF MEXICO watch every morning for the reappearance of Montezuma. They say that one day instead of the sun rising the ancient Emperor will reappear and lead his people to their ancient land. Every morning, on their knees with crossed arms, and expectant faces turned towards the east, they wait until the edge of the sun appears above the distant hills, when they turn away with a sigh, to wait for another day. The popular idea is that sometime within six years he must come. This theory of the coming man is one of the most wide-spread superstitions in every quarter. In Germany Frederick Barbarossa is sitting in the Kyffhausen, waiting till the time comes when he shall be allowed to step forth and lead Germany to unity; some practical ones look upon Bismarck as the man, but he is not, for Barbarossa is still coming. Denmark has in its strong Kongsberg the impatient Holger Daneke, who is to come forth and fight for his fatherland in the hour of her greatest need. Some have lost their faith in Holger since he failed to prevent the partition of Denmark. But Bismarck was too much for him. And even here in new practical America, we have the remnant of this superstition in our constant faith, in spite of numerous disappointments, in the coming man.

Within the last half dozen years the United States have become fashionable. People in Europe come here on the slightest provocation; some with reputations for talent, for valor, for wealth or rank, and some with no reputation whatever, flock over to be more or less lionized, just as the popular humor seems to flow. Every European celebrity now a days, to complete or to adorn his career, must become an object of interest in America. Louis Napoleon and Garibaldi, the Prince of Wales and Kossuth have all been here, and Garibaldi, on dit, is coming. It is too soon to expect Bismarck or Francis Joseph, but their time and Queen Victoria's may yet come, and no one would be surprised at a visit from the Czar of all the Russias or his heir. The Tycoon's advent among us is not an impossibility, and there is an even chance of the throne of St. Peter being planted in our midst. In the meantime the American rush for Europe is not so furious as it was, and those of us who have patience or poverty enough to wait, may yet see Europe in America.

SECRET political societies are being unearthed in Paris. Riots in a small way have taken place there; immense numbers of workmen are unemployed because the building improvements of Baron Hausman are finished. All these straws show the direction of the political zephyrs, and just such a state of affairs has preceded the great revolutions in France, and have heralded a change of government if not of dynasty. Napoleon is growing old; his son is feeble; the popular feeling is again showing itself; France is on the eve of a change. Will Napoleon be willing to risk all on a war? That is the question which startles European journals, and which evidently troubles even the Sphynx at the Tuilleries.

Messrs. Ticknor & Fields gave a dinner to Prof. Longfellow, the other day, to celebrate the completion and publication of the translation of Dante, on which he has been engaged for the last twenty-five years. But twenty persons were present, but they formed a society as distinguished as one can well imagine. Bryant, Halleck, Dana, Lowell, Holmes, Emerson, Whittier, Agassiz, Curtis and Parton were among them.

Mr. Charles Dickens' agent has just perpetrated another impertinence. In his Boston advertisement he requests his audience to be seated ten minutes before the readings begin. This man Dolby's cheek must be as large as was Daniel Lambert's.

MINNESOTA.

[Correspondence of the Pittsburgh Gazette.]

ST. PAUL, MINN., Nov. 14, 1867.

EDITORS PITTSBURGH GAZETTE:—The smoke of the battle fought on the 4th instant is sufficiently lifted to announce the fact that our State ticket is elected by between four and five thousand majority, a gain of some one thousand five hundred over the election of 1865, when the same nominees, who are re-elected, were the nominees of the Republican party. Judge Flandraw, the standard bearer of the great unwashed Democracy, and the willing Representative of Repudiators of the national debt, has learned that the people of Minnesota do not favor the idea of elevating to the Chair of State one who, when the country was almost in its death throes, gloried in its disasters, and mourned when successful. The battle has been a hard one, for not only had the Republican party to meet the issues of the day, but had to fight weighty side issues, such as schemes to pay in full near or quite four millions of swindling railroad bonds, issues by a former Democratic administration, for which the State has never received one cent on the dollar, and to fight the whole banking capitol of the State, who, by a cunningly devised plan of their own, sought so to amend the Constitution of the State that they would be enabled to escape the burthen of taxation, except for State purposes, i. e. pay five mills on the dollar, while all others pay thirty-six mills.

The incoming Legislature will not be as strongly Republican as the last, for the reason that Republicans over the State have had, like us, their petty jealousies among themselves; nevertheless the Republican majority will be quite respectable on joint ballot—from twenty upwards, enough for all practical purposes.

Of the fate of the Suffrage Amendment, the best posted politician can give no idea at present, and nothing but the full official returns will set the matter at rest. This much is assured. The vote *for it* is very much heavier than it was two years ago—and the Democrats are trembling in their boots, *fearing*, and *we hoping*, that it has carried.

Ramsey county, in which the city of St. Paul is situated, is intensely Copperhead. It is but a few months ago that the unterrified seated on the bench of the Common Pleas, for seven years, a man who out-Heroded Herod in his intense hatred to the Union, and who, like Flandraw, went to parts unknown in order to escape the draft. At the late election the same party returned to the State Senate and Legislature one, a Breckinridge democrat, and the other a bitter secessionist. The President, and a majority of our City Councils, are of the same household faith, and, as a consequence, we are burthened with taxes. "The King," as Greely calls it, is, if anything, worse than the New York one, of which he so bitterly complains. What more can I say that will convey an idea of their worthlessness?

Winter is upon us, but we are facing it bravely. We are not as isolated from the "world and the rest of mankind" as we were. We have direct connections by railroad with the East, and the long land journey to La Crosse, Wisconson, is obviated. It was no joke to ride one hundred and eighty miles, day and night, and the weather 20 to 40 degrees below zero. Our harvests have been fair—in some localities abundant; yet prices rule so high that it is with the utmost economy that a salary of eight hundred dollars, *without rent*, enables me to make both ends of the year meet. Flour was seventeen dollars per barrel last spring, and it is now ten; wood is nine dollars per cord; potatoes one dollar per bushel; butter forty to forty-five cents per pound. Clothing is from 15 to 25 per cent. higher than at the East. Now, I presume, that all the necessaries of life are near or quite as high with you as with us, but the price of labor with you is higher than with us. Besides, you are highly favored in the article of fuel. Only think, no one family in moderate circumstances can do with less than fifteen cords of wood per year at nine dollars a cord, which amounts to one hundred and thirty-five dollars, when the same family, in your midst, would keep warm at half the cost, and have the cheerful light of the fire thrown in gratis.

I have seen lately, in some newspaper, a statement of the earnings and dividends declared by some of the most prominent railways in the United States. None paid less than ten per cent. upon shares, besides providing ample contingent funds, but I doubt not that when the next report of the Saint Paul and Pacific Railroad sees the light, if ever it does, you will be astonished at *its* earnings. It was worth one's while to be at the depot as each train reached the stations on the ever memorable 5th day of November, year of grace 1867. Such loads of "sans cullotes" as disgorged themselves from the cars! Without wishing to be very accurate, I supposed that a whole suit of clothes might possibly have been gathered from every size individuals, all apparently of the Celtic race, and the word *Dimierat* was as legibly written on their countenances as X—60—1838 on public corners and fences. I have been wondering ever since whether the successful election of George L. Becker to the State Senate, who is also the President of the first division of the St. Paul and Pacific Railroad, and the immense travel traffic of that day have relation to one another. Probably, it was a mere coincidence.

One thing the Democratic party of this city deserve credit for; the elections were quiet and favorable—with one or two exceptions, a stranger, unless at the polls, would not have known that an election was being held. Due credit should be given, inasmuch as it so seldom happens.

To counterbalance any ills we may have, not known among you, we have a glorious country. The climate is perfectly healthy—our falls rival those of the most favored country; our winters, if cold and long, are perfectly dry; no slush, drizzle or thaws, consequently no colds, wheezing or coughing. Our springs—well, I can't say much about them, for, although I have built and lived in my wigwam a dozen years, I have never seen one, nor do I believe that the oldest inhabitant ever did. Our summers are hot, sometimes very hot. Of a necessity they must be so, for the seasons are short to mature grain crops. But it is seldom, indeed, when an abundance of good air is not stirring, and, what is best of all, when the denizens of "Old Pitt" are dragging their pillows on house-tops, balconies or back yards, in hopes of being able to catch a breath, we of the North Star State enjoy *cool*, peaceful slumbers, such as your Shoenbergers, Bradleys, Berrys and Woods would freely purchase for quite a consideration. Another thing in which we excel—we give Republican majorities, while Pennsylvania elects Sharswood. *Au revoir.*

THEATRICAL NOTES.

John E. Owens had a successful engagement at Cincinnati last week.

Alf. Burnett is resting at his home near Cinninnati. We hope he is studying some new selections. His old programme is worn out.

Beecher's Norwood is rendered with good effect on a New York stage. The curtains falls on a host of characters not yet disposed of by the author.

The Black Crook is running at Niblo's.

Lawrence P. Barrett will return from Europe next Christmas. He met with success in England.

The Webb sisters are about to start for California.

Emily Melville played to beggarly houses in Memphis, and is coming north for the health of her finances. She was in Cleveland last week. She is very popular here.

The Galveston theatre was dedicated to the art thespian by a collation of bread and butter for several thousand men and women.

Edwin Adams is at the Park Theatre, Brooklyn.

For nearly a week a destructive fire has been ravaging the country in the neighborhood of Racine, Wis. Thousands of dollars worth of property have been destroyed in the shape of standing timber, dwellings, cord wood, fences, barns, grain and hay. The ground is so dry that the fire has in some places burned two feet below the surface, severing the roots of trees so that the slightest breath of wind sends them toppling over. The amount of damage done by fire in the woods in various parts of the country this year has been fearful. The dry state of the trees and grass renders a mighty conflagration certain if fire ever touches them.

Thanksgiving Proclamation.

COMMONWEALTH OF PENNSYLVANIA.

BY JOHN W. GEARY, GOVERNOR.

From the creation of the world, in all ages and climes, it has been customary to set apart certain days for special religious observance. This has not always been influenced by the light of Christian knowledge, nor by any proper conception of the character of that Great Being "who ruleth the earth in righteousness," and "who daily loadeth with his benefits;" but by an innate sense of the existence of an over-ruling Power, by which the world and all it contains are governed and controlled. Aided by the dictates of cultivated reason, and the teachings of Divine revelation, we, however, are taught to recognize in that Supreme Ruler a Heavenly Father, to whom we are indebted for existence and all the blessings we enjoy, and to whom we owe constant and fervent thanksgiving and praise. It is He who "visiteth the earth and watereth it;" who "setteth the furrows and blesseth the springings thereof;" who crowneth the year with his goodness, and whose paths drop fatness;" who "clotheth the pastures with flocks, and covereth the valleys with corn; who maketh the out-goings of the morning and the evening to rejoice;" who is "our refuge and strength;" who "maketh war to cease," and "saveth us from our enimies;" whose "throne is forever and ever," and who "blesseth the nations whose God is the Lord."

On all sides we have increased assurances of the "loving kindness" of an All-wise Parent of Good, who has conducted our nation through a long and terrible war, and permitted our people to once more repose in safety, "without any to molest them or make them afraid." The monstrous sentiment of disunion is no longer tolerated. The Flag, the Union, and the Constitution are esteemed as the safeguards of the rights and liberties of the people, and are revered and defended as the ark of their political safety.

A kind Providence has not grown weary of supplying our continuous wants. A bounteous harvest has rewarded the labors of the husbandman. Flocks and herds are scattered in countless numbers over our valleys and hills. Commerce is uninterrupted, and vessels laden with the products of nature and of art, speed, unmolested, over the trackless deeps. Neither pestilence, famine, political or social evils, financial embarrassments or commercial distress, have been permitted to stay the progress and happiness of the people of this great Commonwealth; but peace, health, education, morality, religion, social improvement and refinement, with their attendant blessings, have filled the cup of comfort and enjoyment to overflowing.

Recognizing our responsibility to Him who controls the destinies of nations as well as of individuals, and "from whom cometh down every good and perfect gift," and to whom we are deeply indebted for all these and the richer blessings of our common Christianity, let us unitedly give our most devout gratitude and hearty thanksgiving.

I, therefore, do hereby recommend that THURSDAY, THE 28TH DAY OF NOVEMBER NEXT, be set apart as a day of praise and thanksgiving, that all secular and worldly business be suspended, and the people assemble in their various places of worship to acknowledge their gratitude and offer up prayers for a continuance of Divine favor.

GIVEN under my Hand and the Great Seal of the State, at Harrisburg, this thirty-first day of October, in the year of our Lord one thousand eight hundred and sixty-seven, and of the Commonwealth the ninety-second.

JNO. W. GEARY.

By the Governor:
F. JORDAN, Secretary of State.

Why Shake? Why Burn?

Put these two questions to a man passing through the alternate paroxysms of Fever and Ague, and he will probably reply, "because I cannot help myself."

But he is mistaken. He can help himself. He need not continue to endure the marrow-searching cold and parching heat of intermittent fever unless he chooses.

If there is an established fact in the history of medication, it is this: that HOSTETTER'S STOMACH BITTERS invariably breaks up the fits of this exhausting disease.

Quinine often fails, and whether it fails or not, it is always a dangerous medicine. It stultifies the brain. The Bitters have no such effect. Quinine shatters the nervous system. The Bitters, on the other hand, are a glorious nervine; in fact, a specific for nervous ailments.

Medicines, as a general rule, are bad to take. Not so, this famous vegetable specific. It is mild and agreeable, not pungent and nauseating. The liver is always greatly disordered in intermittent fevers, and this excellent tonic and alterative has anti-bilious properties of the highest order. The stimulant employed to diffuse its medicinal virtues through the organism of the body is perfectly pure, and this cannot be said of the spirituous basis of any other tonic. The best advice that can be given to persons residing in malarious regions, or in crowded cities, is to take it as a PREVENTIVE of diseases incident to both. Whether used as a protective antidote, or a remedy, it will be found wonderfully efficacious.

The Greatest Success Known.

We are credibly informed that during the month of October there was sold in this city alone over TWENTY-FIVE HUNDRED BOTTLES OF DR. KEYSER'S PECTORAL SYRUP. These bottles of medicine show one thing infallibly, and that is, that thousands of people are afflicted with coughs and colds. It also heralds the fact beyond all doubt, that DR. KEYSER'S PECTORAL SYRUP is the greatest of all remedies for such diseases.

The Doctor proposes to refund the money when the Pectoral fails to do good in every case of hoarseness, recent cough, blood spitting, influenza, or any incipient lung disease. The fame of DR. KEYSER'S PECTORAL COUGH SYRUP is now as wide as the boundaries of our State, and in many cases has gone far beyond these limits.

Of the one hundred and sixty thousand computed citizens of Pittsburgh, not one can afford to do without this wonderful medicine. Its often attested speediness of cure; its success in every household where it has been used; its being free from unpleasantness; its well known component of harmless ingredients, has made DR. KEYSER'S PECTORAL SYRUP to be acknowledged not only by the people who have had occasion to use it, but has introduced it to the notice and use of many of the most respectable of the medical profession. Sold at the Doctor's Great Medicine Store, 140 Wood street.

$100 FOR TEN CENTS.

Only a few more subscribers are required to insure the speedy issue of the Great Illustrated Paper,

THE WEEKLY PRESS,

Which in size and appearance will resemble HARPER'S WEEKLY, but in value will far transcend that publication.

The PRESS will be an embodiment of the spirit of the age.

Each department will sparkle with the genius of the most eminent writers of the day.

An original SERIAL STORY of the most brilliant character will be commenced in the first number.

THE ILLUSTRATIONS will be entirely original and of the most attractive style and nature.

The great expense and labor involved in this enterprise render it necessary that we should start with an enormous circulation. In order to do this, we shall do as follows:

$10,000, in sums of $100, will be distributed through the first edition. To every given number of paper, $100 will be allotted. Every copy of the PRESS will be enclosed in a stout wrapper, so that the papers containing the greenbacks will not be known by their external appearance, and all purchasers will have an equal chance for the money and gifts.

Besides the $100 BILLS, orders will be enclosed in certain copies of the edition for the following

NEW ADVERTISEMENTS.

500 MILES

OF THE

UNION

PACIFIC RAILROAD

Running West from Omaha,

ACROSS THE CONTINENT,

ARE NOW COMPLETED.

The Union Pacific Railroad Company have built a longer line of railroad in the last eighteen months than was ever built by any other company in the same time, and they will continue the work with the same energy until it is completed. The Western Division is being pushed rapidly eastward from Sacramento by the Central Pacific Company of California, and it is expected that

THE ENTIRE GRAND LINE

To the Pacific will be open for business in 1870. MORE THAN ONE-THIRD OF THE WORK HAS ALREADY BEEN DONE, MORE THAN ONE-THIRD OF THE WHOLE LINE IS NOW IN RUNNING ORDER, AND MORE LABORERS ARE NOW EMPLOYED UPON IT THAN EVER BEFORE. More than

Forty Million Dollars in Money

have already been expended by the two powerful companies that have undertaken the enterprise, and there is no lack of funds for its most vigorous prosecution. When the United States Government found it necessary to secure the construction of the Union Pacific Railroad to develop and protect its own interests, it gave the companies authorized to build it such ample aid as should render its speedy completion beyond a doubt. The available means of the Union Pacific Railroad Company, derived from the Government and its own stockholders, may be briefly summed up as follows:

1—United States Bonds.

Having thirty years to run and bearing six per cent. currency interest at the rate of $16,000 per mile for 517 miles on the Plains; then at the rate of $48,000 per mile for 150 miles through the Rocky Mountains, then at the rate of $32,000 per mile for the remaining distance, for which the United States takes a *second lien* as security. The interest on these bonds is paid by the United States government, which also pays the company one-half the amount of its bills in money for transporting its freight, troops, mails, &c. The remaining half of these bills is placed to the company's credit, and forms a sinking fund which may finally discharge the whole amount of this lien. The claims against the government since April of the current year, amount to four and one-half times this interest.

2—First Mortgage Bonds.

By its charter the Company is permitted to issue its own First Mortgage Bonds to the same amount as the bonds issued by the government, and *no more, and only as the road progresses.* The Trustees for the bondholders are the Hon. E. D. Morgan, U. S. Senator from New York, and the Hon. Oakes Ames, Member of the U. S. House of Representatives, who are responsible for the delivery of these bonds to the Company in accordance with the terms of the law.

3—The Land Grant.

The Union Pacific Railroad Company has a land grant or absolute *donation* from the government of 12,800 acres to the mile on the line of the road, which will not be worth less than $1 50 per acre at the lowest valuation.

4—The Capital Stock.

The authorized capital of the Union Pacific Railroad Company is $100,000,000, of which over $5,000,000 have been paid on the work already done.

The Means Sufficient to Build the Road.

Contracts for the entire work of building 914 miles of first-class railroad west from Omaha, comprising much of the most difficult mountain work and embracing every expense except surveying, have been made with responsible parties (who have already finished over 80 miles), at the average rate of sixty-eight thousand and fifty-eight dollars ($68,058) per mile. This price includes all necessary shops for construction and repairs of cars, depots, stations and all other incidental buildings, and also locomotives, passenger, baggage, and freight cars, and other requisite rolling stock, to an amount that shall not be less than $5,000 per mile. Allowing the cost of the remaining one hundred and eighty-six of the eleven hundred miles assumed to be built by the Pacific Company to be $90,000 per mile.

The Total Cost of Eleven Hundred Miles will be as follows:

914 miles, at $68,058	$62,205,012
186 miles, at $90,000	16,740,000
Add discounts on bonds, surveys, &c.	4 500,000
Amount	$83,445,012

As the U. S. Bonds are equal to money, and the Company's own First Mortgage Bonds have a ready market, we have as the

Available Cash Resources for Building Eleven Hundred Miles:

U. S. Bonds	$29,328,000
First Mortgage Bonds	29,328,000
Capital stock paid in on the work now done	5,369,750
Land Grant, 14,080,000 acres, at $1 50 per acre	21,120,000
Total	$85,145,750

The Company have ample facilities for supplying any deficiency that may arise in means for construction. This may be done wholly or in part by additional subscriptions to capital stock.

Active inquiry has already been made for a portion of these lands, and arrangements are now proposed to offer a part of them for sale. While their whole value will not be available for some years to come, they will remain a very important source of revenue to the Company. The lands of the Illinois Central Railroad Company are selling at from $6 to $12 per acre, and other land-grant companies in the West are receiving equal prices for similar properties.

FUTURE BUSINESS.

The most skeptical have never expressed a doubt that when the Union Pacific Railroad is finished the immense business that must flow over it, as the only railroad connecting the two grand divisions of the North American continent, will be one of the wonders of railway transportation; and as it will have no competitor, it can always charge remunerative rates. The Pacific Mail Steamship Company of New York is now running a regular line of its splendid steamers between San Francisco and China and Japan, which is doubtless the pioneer of other lines, that will traverse the Pacific Ocean laden with the teas, spices and other products of Eastern Asia. Excepting some very heavy or bulky articles, of comparatively low values, shortness of time decides the direction of freights, and most of these cargoes will find their natural transit over the Union Pacific Railroad.

It is quite within bounds to say that its traffic will be limited only by the capacity of the line, and that no other road will find a *double track* so necessary. California and Oregon must not only be supplied with means of transport for its passengers, mail, treasure and other freights, but the inhabitants of Dakotah, Colorado, Utah, Idaho and Montana will communicate with the older States almost entirely by this road. It will be the avenue to all the great mining district, which is only awaiting this ready means of communication to receive a population that will develop its vast mineral and other resources, and which of itself would furnish ample business for a railroad line.

EARNINGS FROM WAY BUSINESS.

While the through business of the Company will be amply remunerative, it is still in the future, but the local business on the part of the road in operation has been most satisfactory.

During the quarter ending July 31, an average of 325 miles of the Union Pacific Railroad was in operation. The Superintendent's Report shows the following results:

Earnings.

Passengers, Freight, Telegraph and Mails	$ 72[illegible],7[illegible] [illegible]
Transportation of Contractors' Materials and Men	4[illegible]9 [illegible]83 41
Total	$1,[illegible]0[illegible] [illegible]

Expenses.

Fuel, Repairs, Offices, Conductors, Trains, &c.	$ [illegible]
NET EARNINGS to balance	[illegible]
Total	$1,2[illegible] [illegible]

The net operating expenses on the commercial business for the quarter were $2[illegible]7 [illegible] 50. The account for the COMMERCIAL BUSINESS stands as follows:

Earnings for May, June and July	$72[illegible] 7[illegible] [illegible]
Expenses	2[illegible]7 [illegible] 50
Net Profit	$4[illegible]8 7[illegible]9 04

The amount of Bonds the Company can issue on 325 miles, at $16,000 per mile, is $5,200,000. Interest in gold, three months, six per cent., on this sum, is $78,000; add 40 per cent. premium, to correspond with currency Earnings, is $109,200—showing that the net earnings for this quarter were *more than four times the interest* on the First Mortgage Bonds on this length of road.

First Mortgage Bonds,

whose principal is so amply provided for, and whose interest is so thoroughly secured, must be classed among the SAFEST investments. They pay

Six Per Cent. in Gold,

and are offered for the present at NINETY CENTS ON THE DOLLAR, and accrued interest at Six Per Cent. in Currency from July 1.

Many parties are taking advantage of the present high price of Government stocks to exchange for these Bonds, which are over FIFTEEN PER CENT. CHEAPER, and, at the current rate of premium on gold pay

Over Nine Per Cent. Interest.

Most of our readers will remember Miss Tennessee Claflin, who figured in this city some years ago. She has turned up again in Chicago, as the following certificate from the *Tribune* will show:

"On the 21st of March last my house was entered during the night by burglars, and my gold watch and chain and $1,700 were taken. After a time I gave up all hopes of ever getting them, as I could not get any clue. Business called me to Chicago, and while here was handed one of Miss Tennessee's circulars, living at 265 Wabash avenue. Having heard of her wonderful powers when a child, I was induced to call on her. She at once told me that I had met with a loss, and that it was three things—it looked to her as if it was a watch, a chain, and a large roll of bank bills. It so astonished me that I at once became interested. She went on, and told me that the chain was an old relic, and that my watch was out of repair, and would catch in opening, which was true. She then described two men. She told me that I could not get the money, but the watch and chain had been sold to a man who runs on the river, and that if I would follow her advice I would find them in seven days, which I did; in less than four I found the man, and he had them, and he described the man he bought them of, just as she said. My name is W. S. Jones, residence South Fifth street, St. Louis, Mo."

FOR SALE—REAL ESTATE.

FOR SALE—The best Farm in Fairfield township, Westmoreland county, Pa., containing about 280 acres, situated six miles south of the Pennsylvania Railroad, at Bolivar Station. The improvements are a large hewed log house, with nine rooms, a good cellar; a frame bank barn, 40x70, with the best of stabling. Two apple and one peach orchard. The whole farm is under a high state of cultivation; the fencing is all No. 1; the soil is good, and is well watered; about 200 acres cleared, the remainder in good white oak timber. This property is offered at the low price of fifty dollars per acre. Possession immediately.

Also, a Farm of 212 acres in Penn township, Westmoreland county, 120 acres cleared and under cultivation, 92 acres of first-rate white oak and other timber, 2 dwelling houses, 1 of them 2 stories, the other 1 story, with a tenant house, with a first-rate steam Sawmill in good running order; young orchard of grafted fruit. The land is rolling; every acre is tillable, with limestone soil, and subsoil, with never failing springs; within one hundred rods of the Penna. Central Railroad; 28 miles east of Pittsburgh, and three miles west of Greensburg. This farm is pleasantly and eligibly situated in a good neighborhood, every acre is underlaid with coal. The title is good.

Also, 60 acres in Derry township, Westmoreland county, Pa., within four miles of Blairsville, and three miles of two stations on the Pa. R. R. The improvements are, a new frame dwelling house and outbuildings; a new steam saw and grist mill, with two run of burrs, two bolting cloths, and all the necessary fixtures, and a young orchard of choice fruit trees. The whole tract is underlaid with a six foot vein of coal, none opened, and an abundance of limestone. This property will be sold very low, if applied for soon.

Also, the best Hotel in the Borough of Indiana, the county seat of Indiana county, Pa. This is a large four story brick building, of 34 rooms and a basement under the whole house, and is situated on the corner of Philadelphia and Clymer streets, on a lot 60 by 200 feet; and on said premises is a frame house 24 by 60 feet, used as a wood house in the lower story and bill room above; also, a frame stable 40 by 60 feet; also, a half lot, 60 by 100 feet, on which is a large frame stable, used as a livery stable. The whole property has recently been painted and repaired throughout, and is one of the best locations for a public house in Western Pa., and will be sold very cheap if applied for soon.

Also, a Farm of 1-2 acres, at half price, to a cash customer. This farm is in Derry township, Westmoreland county, Pa., within two miles of Latrobe, a station on the Penna R. R.; 110 acres of cleared land, under good fencing, the residue 22 acres in good white oak, black oak, hickory, black walnut and locust timber. This is a first rate farm, in a high state of cultivation, with good and comfortable buildings, a frame house of 8 rooms; large barn, 50, by 45 feet, and has coal and limestone under the whole tract, and is convenient to churches, schools, mills, &c.

Also, a Farm of 127 acres, within 1½ miles of the Penna R. R., at Carpenter's station [illegible] miles from the city; 100 acres of the land is cleared and under good fencing, the residue of tract in white oak timber. There is a new log house and barn, and a young apple orchard on the premises. It is good limestone soil with an abundance of limestone, and never-failing springs of water, and is offered at the low price of $60 per acre, on good time, because the owner is engaged in other business and cannot attend to it.

AN ORDINANCE for the Grading, Paving and Setting with Curb of Church street, from its intersection with Day son street, southwardly, to the borough line of the Borough of Lawrenceville.

SECTION 1. *Be it ordained and enacted by the Burgess and Town Council of the Borough of Lawrenceville, and it is hereby enacted by authority of the same,* That the Street Committee, in connection with the Borough Regulator, be and they are hereby authorized and empowered to invite and receive proposals for the grading, paving and setting with curb that portion of Church street extending from the intersection of said street with Davison street, southwardly to the borough line, and to contract therefor with the lowest and best bidder, at their discretion.

SECTION 2. That the expense of grading said street shall be paid out of the Borough Treasury, as provided for by existing ordinances, and for the purpose of defraying the cost and expense of paving and curbing said street, there be and there is hereby levied a special tax, to be equally assessed on the several lots bounding and abutting on said street, in proportion to the feet front thereon and comprised and bounding and abutting as aforesaid.

SECTION 3. That so soon as the cost and expense of paving and curbing said street is fully ascertained by the Borough Regulator, it shall be his duty to assess and apportion the same among the several lot-holders owning property on said street, according to the rule herein before indicated, and thereupon to give notice thereof to the owner or owners of said lot or lots respectively, or to the agents or guardians of such owners, and make return of such assessment to the Treasurer of said Borough.

SECTION 4. That it shall be the duty of the Treasurer of said Borough, on the return so made, to cause notice to be given to the persons on whom assessments have been made as aforesaid, that unless the amounts of such assessments are paid to him in thirty days from the date of such notice, he will proceed to collect the same in the manner provided by law.

MISCELLANEOUS.

DR. J. SARGENT'S

FAMILY MEDICINES.

DR. JOHN SARGENT'S

Anti-Dyspeptic and Liver Pills,

A CERTAIN CURE FOR

Liver Complaints, Dyspepsia, Bilious Attacks, Jaundice, Sick Head-Ache, Colds, Costiveness, &c.

THE EXTRAORDINARY AND increasing demand for my ANTI-DYSPEPTIC AND LIVER PILLS, has induced me to make them more public, in order that their usefulness may be more extensive, and would earnestly beg of those who have tried other medicines and not experienced the relief they anticipated, to try, for once, SARGENT'S ANTI-DYSPEPTIC AND LIVER PILLS. There are no other Pills yet compounded which have given such universal satisfaction, nor do any other Pills meet the requirements of the household as do these.

I cannot, of course, enumerate the diseases for which these Pills are beneficial, but whenever a cathartic is necessary, they will effect a speedy and permanent cure. They remove from the blood all corrupt humors, which are always the cause of the disease; they open those excretory vessels which empty into the bowels; they give a healthy action to the liver, enabling it to throw off all corrupt humors; they promote the secretion of bile, aid digestion, purify the blood, and will, in a short time, restore the body to a state of sound health.

DYSPEPSIA.—This distressing malady—so prevalent in our country—is caused by a want of tone in the stomach, the usual symptoms of which are as follows: a pain or uneasiness upon pressure below the sternum or breast bone, sometimes attended with an eructation of water, brash or heart-burn; a disposition to vomit, flush of heat preceding from the stomach, incessantly circulating through the whole system; loss of memory; a variable or certain appetite; great depression of spirits, inclining to melancholy; weariness and great antipathy to exercise.

It is seldom that all the above symptoms are found in the same patient at one time; any of them, therefore, is a sufficient indication of the presence of the disease and need of this medicine. DR. SARGENT'S ANTI-DYSPEPTIC AND LIVER PILLS, never fail in curing this disease, when taken according to the directions.

I attach a few of the many certificates I could give in such a form as I hope will be satisfactory; but all the certificates I could publish would not inspire half the confidence that one trial will give.

FROM DR. JOHN BUTLER.

LOWELLVILLE, TRUMBULL CO., O.—DR. J. SARGENT—Dear Sir: I have your wish of attention in keeping me supplied with your Anti-dyspeptic and Liver Pills; they sell so fast in my drug store I have been using them in my practice also, with the best consequences. I find them the most efficient of any pill I have ever used. I have been frequently solicited at the large amount of bile removed by so small a quantity of pill material. I request you to send me a fresh supply immediately, as I have been sometimes without. JOHN BUTLER, M. D.

STEUBENVILLE, OHIO.—DR. SARGENT: I write to request you to send me a box of your Anti-Dyspeptic and Liver Pills, as I cannot be able to get them since I left Allegheny. I cannot do without them; they have done me so much more good than any other medicine I ever used. I trust you will not fail to send me a box of them, so that I can get them where I can. [illegible] with the above will oblige yours, respectfully,

JANE E. WALLOW.

[illegible] POINT, BEAVER CO., PA., February 21, 1866.—DR. SARGENT—Dear Sir: After suffering for two years with Liver Complaint, attended with bad cough, and trying several remedies, I was induced to try your pills, which relieved me immediately, and I take pleasure in recommending them to all suffering from these complaints. Very truly, yours, D. M. HOSLEY.

ROCHESTER, PA., 1867.—DR. SARGENT—I consider that I owe my life to the use of your Pills. Before I began to use them [illegible] my physician had done all he could for me, and I still got worse; but when I began to take your pills I got better, and I am now well. I am now seventy-five years of age.

ABRAHAM WALKER.

This is to certify that I have used Dr. Sargent's Liver Pills in my family for the last two years, and I consider them the best medicine I have used.

J. M. DEVINNY.

New Brighton, Pa., July 1, 1867.

DR. SARGENT'S ANTI-DYSPEPTIC AND LIVER PILLS are for sale at all Druggists—both sugar coated and plain. Be sure and call for Dr. Sargent's Anti-Dyspeptic and Liver Pills, and take no other.

DR. SARGENT'S COUGH SYRUP,

An Old Preparation for the complete cure of COUGHS, COLDS, INFLUENZA, CROUP, DIFFICULTY OF BREATHING, ASTHMA, QUINSY, PHTHISIC, ACUTE AND CHRONIC BRONCHITIS, NIGHT SWEATS, BLEEDING OF THE LUNGS, AND ALL DISEASES OF THE LUNGS, THROAT AND CHEST.

DR. SARGENT'S COUGH SYRUP contains nothing injurious, but can be taken by the smallest infant with perfect safety. It does not dry up a cough as most of the quack preparations do, but on the contrary, it loosens the phlegm from the mucous surface of the Bronchial tubes, and assists its expectoration, at the same time allaying the cough and relieving all pain from the chest and lungs.

DR. SARGENT'S COUGH SYRUP is an infallible remedy in Whooping Cough, relieving it in a few minutes, and especially effecting its radical cure; and for Croup or Hives it is the most efficient remedy known. Many a child has been saved by one dose taken according to directions, often saving the life of the child.

Sold by all Druggists and Dealers in Medicine. Buy a bottle and give it a trial.

DR. JOHN SARGENT'S

Diuretic or Back-ache Pills,

FOR ALL DISEASES OF THE

KIDNEYS AND BLADDER.

These Pills have now been before the public in this neighborhood for upwards of thirty two years, during which time they have been eminently successful in the removal and cure of these dangerous and troublesome diseases, which often baffle the skill of the best Physicians. This fact is well attested by the number of wonderful cures they have effected, some of long standing. A sense of duty and the urgent request of those who have experienced the beneficial effects of the medicine, impels me to make it more generally known, by giving it a much wider circulation. Believing that there is no other medicine published for these complaints that can be carried to every man's door without the aid of a physician; and it is a well known fact that there are thousands who live so far removed from or are unable to procure the aid of one who will be of service to them.

The disease commonly called Back-ache and to which these Pills are peculiarly applicable, is found to exist in the aged or infirm, the laborious and the sedentary. It is caused by obstructions or chronic inflammation of the kidneys, ureter, bladder, &c. and is known by a depressed pain in the small of the back, sometimes extending round the loins to the abdomen; or a dull, heavy, or numbing pain, extending from the back down the hips to the extremity of the abdomen to the inner part of the thigh. In all cases difficulty is experienced in voiding the urine, and many persons afflicted with this troublesome complaint are unable to endure violent exercise; many, when stooping have danger in assuming an erect position. Having had numerous opportunities for forty years of testing the virtue and efficacy of this medicine, and with the advice of those who have experienced the good effects of it, I now respectfully submit it to the public, believing that it will be generally beneficial. The few certificates I publish are from this immediate neighborhood, and can be referred to at any time.

CERTIFICATES.

SIR—This is to inform you that I was very much afflicted with violent pain in the back, and great difficulty in voiding my urine. I was recommended by Mr. McClintock to take some of your Diuretic Pills, which I did, and was perfectly cured, and I have not felt any of the complaint since, being eighteen months.

MERCER COUNTY. JOHN STEWART.

DR. SARGENT—SIR: I have to inform you that I believe I owe my life entirely to taking some of your Pills. I have been taking medicine for several days from my physician without effect, being confined to bed and in great agony. I sent my husband to you, and he was told by you that I had the gravel. I took the first dose as you directed, and experienced relief, and my disorder left me after taking the remainder.

ALLEGHENY. MARGARET SEAT.

DR. SARGENT—I was for a long time afflicted with what I thought to be rheumatism in my back, so that when I stooped down I could scarcely right myself again. I was advised to try your Pills, which cured me, and I have not felt it since. I have since given a great many away to others, who have found the same benefit.

J. WILLIAMSON.

CROWN'S BOTTOM INN.

SIR—I was for a long time afflicted with a pain in my back. I was given by Mr. Williamson to try your Pills. He gave me some which completely cured me. I have since obtained two boxes, and gave them to others in our town with the same effect, and if you are charge for dollars for them I would have paid it cheerfully.

LEWIS HUMISTON.

AKRON, OHIO.

SIR—I have been afflicted with the complaint described in your papers for the last five years, during which time I have tried everything I could hear of without effect, till I met with your Pills. I have now taken half a box, and want more to continue taking them, as I feel better now than I have felt for four years, and I have no doubt the next box will cure me.

J. HILLER.

ALLEGHENY.

SIR—I have been troubled with back ache for four or five years, so that at times I could not rise up or lie down without pain. I took part of a box of your pills, which completely cured me, and I have been at perfect ease ever since. I do, therefore, confidently recommend them to others.

PETER CRUMPTION.

ALLEGHENY.

DR. SARGENT—SIR: I take this opportunity to state that your Diuretic Pills are the most effectual medicine for the back ache I ever met with. I can confidently recommend them from experience.

This Court met on Saturday and postponed the taking up of the trial list for another week.

Quarter Sessions.

Jury trials will be resumed in this Court to-day.

Smoke Consumption.

Some time ago we published some account of a new invention by Mr. Jacob Green, for consuming smoke and economizing fuel, with extracts from letters on the subject received from an intelligent friend in Philadelphia, whose large experience as a worker in iron qualifies him to form a right judgment on this interesting subject, and who, with others had determined to erect at Norristown an extensive Glass Works, for the purpose, among others, of testing in a practical way the principle involved in Mr. Green's invention. Deeming the subject one of peculiar interest to this community, we make no apology for giving the following extracts from a letter of the same correspondent under date of the 12th inst.

"I take pleasure in saying to you that the improvement of Jacob Green for consuming smoke and gas is a great success. We have been using for nearly three months one melting and one blowing and flattening furnace, and are prepared to start three more melting and flattening furnaces. The success in consuming the smoke and gas without chimneys, convering them into a pure intensely hot flame and saving at least forty per cent. of coal, is no longer a question. The improvement, in some respects, exceeds our expectations. The heat is easily controlled. This great invention is attracting much attention from manufacturers. It is the greatest invention of the age when considered in its adaptability to all kinds of manufacturing, from making iron, steel or glass, down to brick and lime kilns. An iron mill firm in Norristown has tested the improvement on one of their furnaces with such success that they have negotiated for the right to apply it to nine heating and puddling furnaces. It can be applied with little expense to furnaces of the ordinary construction. * * * * * * We find the heat, when we apply the improvement, (which is applied and taken off in a moment by opening and closing two valves) is instantly increased, that it is a moist, mellow heat, not as destructive in its effect as without the improvement. When we shut off the improvement, which is done in an instant, the furnace throws off a dense black smoke, filled with impurities, then, upon application of the improvement, as quick as thought, the smoke is gone and we have a clear, bright flame, much increased in heat. The degree of heat required is under our perfect control. We find also that the heat is evenly, no one place in the furnace being hotter than another, as in furnaces worked with a draught. In one case the chimney draws the flame, smoke and gas out in the most direct line possible to the top of the chimney, without burning the smoke; in the other, the exit is nearly closed, with a pressure of air and steam beneath the grates, and a second supply of oxygen above the fuel to complete the combustion before the smoke and gas comes in contact with the iron, making a *pressure* heat, filling and heating alike all parts of the furnace with a clear bright flame."

We have not space for further extracts, but will be glad to show our friend's latter to any parties disposed to enquire further of this improvement.

The following patents to Pennsylvanians were issued during the week ending November 12th, from the United States Patent Office:

Biddle Arthurs, of Pittsburgh, for hot air furnaces.

John E. Fry, of Johnstown, for improved mold for casting steel ingots.

T. J. Lockhart and Josiah Locke, of Pittsburgh, for improvement in insulators for lightning rods.

R. D. McCreery, of Oil City, for improved mode of obtaining motive power from petroleum and other oils.

B. C. Painter, of Mechanicsburg, for improvement in flasks for casting tires.

Joseph Wagner, of Newcastle, for improvement in well tubes.

John R. Cameron, of Pittsburgh, for improvement in air engines.

Samuel Gissinger, of Lawrenceville, for improved car coupling.

Israel Kepler, of Cory, for improvement in fireplaces.

Frank Ketcham, of Monongahela city, for improvement in sheep trough.

Allan Neilson, of Allegheny city, for improved washing machine.

J. P. Scott, of Lewisburg, for improved school desk and seat.

A. S. Villee, of Lancaster, for improvement in guide or clamps for harness frames.

T. D. Voorhies, of Easton, for improvement in screw driver.

We are authorized by a gentleman connected with the management of the Grain Elevator, in this city, to say that there is no truth in the statement published in our own and city journals, to the effect that the Elevator had been sold to the Pennsylvania Railroad Company. We are glad to learn, from the same authority, that the obstacles to the success of the Elevator Company have nearly all been overcome, and its affairs are now in a healthy and prosperous condition.

Pardoned by the Governor.—William Carson, who was convicted on Wednesday last in the Court of Philadelphia for maintaining a gambling house, and sentenced by Judge Pierce to six months' imprisonment and a fine of two hundred and fifty dollars, has been pardoned by Governor Geary at the request of many respectable citizens, and has, therefore, been released from confinement.

FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, November 16, 1867. }

Gold opened at 14[illegible], declined to 139⅞, and closed weak and dull at 139⅞. Cable dispatches show a decided improvement in United States bonds with European markets, and the prospect of getting a long five per cent. absolute bond principal and interest payable in gold is likely to have a good influence on the market, and will neutralize the expansion speeches of Stevens and others. A tax of one per cent. on the six per cent. bonds would make it desirable for foreign holders to exchange for a five per cent. loan, making the interest on all bonds less than one thousand dollars payable in either London, Paris and Frankfort, or in all three cities, and at maturity absolutely redeemable in coin.

If the cotton tax of three cents per pound is to be repealed, a reduction on the tariff and revenue taxes on woolen fabrics granted, and the complicated machinery of collecting taxes on the thousand and one articles be done away with, then there is no other method of getting revenues better adapted than to tax the bonds that bear six per cent bonds. The reduction in interest would save twenty-five millions annually to the government, and would reach every one that actually made and saved most out of the depreciated greenback currency; the national banks as well as the capitalist. The bond market is dull, but with a better inquiry for investment at lower rates.

The stock market is on the rise still, and it is firmly believed in Wall street that measures will be taken at the next meeting of Congress to increased the currency of the country; the inflation of prices at the stock exchange would soon be followed by other articles of commerce, except corporation bonds, which must necessarily decline for not yielding enough revenue to keep them on a par with other stocks.

Closing New York quotations, received by Ph. R. Mertz, were as follows:

—A question as to the limit of loans by national banks to any one individual, firm, and corporation, is often raised, and seems still somewhat undecided. Section 29 of the national bank act, which restricts the total liabilities of a single association, corporation, or firm, to ten per cent. of the capital stock of the lending bank, also contains a proviso which is sometimes forgotten by bank managers. This proviso is to the effect that discounts of business paper actually owned by the firm negotiating the same, is not to be understood as money borrowed. According to the letter of this law—and obedience of the letter of our currency and revenue laws is about as much as we can expect of the average of humanity in these days—there is no limit, in the bank act, to the amount of loans which may be made to anybody, provided the accommodation is in the shape of a discount of honest business paper.

—Says the Chicago *Republican*, of Friday: There is a good, fair demand for money, but there does not seem to be any pressure for loans, unless it be from small traders and from the mercantile and manufacturing interest. The principal applicants for loans are grain dealers, and outside parties who have suffered heavy losses from the steady and large decline in some commodities, but who are anxious to carry their stocks awhile longer in the hope that something may result in their favor. The banks are helping along the most worthy, and those entitled to credit get it. But in cases where money is wanted for speculative enterprises it is hard to get, and if advances are made margins must be wide enough to protect the lender against all contingencies. First class securities are placed at 10 per cent. per annum. On the street it is any easy matter to lend money at 1¼@1½ per cent. per month.

—The Chicago *Tribune*, of Saturday, says: We understand that some of the National Banks in the west are exchanging their compound reserves for the three per cent. certificates, to be used for the same porpose. One certificate for $10,000 was received here a few days ago for account of the First National Bank of Sparta, Wisconsin.

The failure of W. H. Mallory, stock and gold broker, is announced. The concern was a small one, and the liabilities are estimated at 35,000. Assets unknown.

—The New York *Times*, of Saturday, says: The sales of gold to-day were at 141@140⅞@141 per cent., the market firm, as compared with last night; while the cash gold seems abundant, and as much as 6 per cent. interest is paid for carrying over balances. The actual cause of the rise in price since three days ago is quite as much a problem to-day as it was yesterday. The foreign quotations for United States 5-20s, and cotton and the political cable news fail to solve it, but there is a strong impression on the street that the operators in gold for a further advance in price are moving upon the calculation that events at Washington this week, either political or financial, upon the next reconvening of Congress are to unsettle confidence and thus promote a rise in gold. We regard this as at least a premature calculation, doubting very much, as we do whether any legislation on the currency of finances will be hastily entered upon, or finally determined before the Christmas holidays. That a great variety of declaratory resolutions will be moved and referred is quite probable; but the chances are three to one against prompt action either in the direction of contraction or expansion, unless the question should be promptly compromised as between the views of the Secretary of the Treasury and the demands of the Northwest for more currency, by leaving the authority in regard to greenbacks where it now stands, and increasing the National bank note circulation $50,000,000 or $100,000,000.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, November 16, 1867. }

The general markets have been remarkably dull during the past week, and what is worse still, there is but little prospect of any immediate improvement. The impression still gains ground that prices will go lower, and this, together with the unsettled condition of financial matters, and extreme tightness in the money markets, has a tendency to retard operations in all of the leading and speculative commodities, and restricts the general volume of business.

GRAIN—Wheat is quiet but steady, and the demand is light, being restricted entirely to supplying the immediate wants of the city mills; we now quote at $2,50@2,55 for prime Red, and $2,65@2,70 for White. Barley is in better demand and firmer but unchanged; we continue to quote Spring at $1,30@1,35. Oats firmer and in good demand and in limited supply; sales at 68@67c, on track, and 70@72c, in store. Corn is dull and in good supply; we continue to quote at 85@90c for new, and $1,15@1,18 for old. Rye is now quoted at $1,45@1,50.

FLOUR—Continues dull and weak, with a drooping tendency but unchanged. Regular sales in store at $10,00@10,50 for Spring Wheat; $12@12,50 for Winter Wheat, and $14@15 for fancy brands. Rye Flour, $8,75@9, and Buckwheat, $5,50 per cwt.

POTATOES—The supply is considerably in excess of the demand, and prices are weak but unchanged; we now quote Peach Blows at 90@95c, on track, and $1 for small lots in store.

APPLES—Continue dull with a supply largely in excess of the demand, but prices are unchanged; regular sales in store at $2,50@3,50 per bbl, for fair to prime.

DRIED FRUIT—Small sales in store at 8@9 for Apples and 12@14c for Peaches.

CRANBERRIES—Sales of common at $9@10 per bbl, and cultivated at $12,50@13,00.

BUTTER—Prime to choice Roll is scarce and in good demand but unchanged; we continue to quote at 35@40c.

EGGS—Scarce and in fair demand but unchanged; sales of fresh packed at 30@31c—mostly at 30c.

HAY—The demand is fully up to the supply, and the market is firm, with regular sales from country wagons at $18@25 per ton, according to quality.

OIL—Lard Oil is reported steady, with regular sales at factory at 88c for No. 2, and $1,10 for No. 1.

ONIONS—Steady with regular sales in store at $5 per bbl.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, November 16, 1867. }

CRUDE—The Petroleum market has been irregular and unsettled throughout the past week, and while there has been a fair volume of business in the aggregate, prices, compared with last week, have still further declined. It was thought that as the indications for an early bulk rise were by no means promising, and the supply in this market was well nigh exhausted would tend to keep up prices, especially for spot oil and specific deliveries, but such is not the case. First water, as well as all the year, 1867, seller's option, has declined to 8c, and even March and April, 1868, has been sold this week at 9c. The sales reported to-day were as follows: 1000 bbls first water at 8c; 3000 for January and February, at 8c; 2000 for all 1867, seller's option, at 8c; 5000 first or second water, at 8c; and 150 to arrive, at 8c. It was rumored to-day that there had been offers to sell to be delivered within fifteen days at 8c, but of this we cannot speak positively, and merely give it as we got it, not pretending to vouch for its correctness. One thing that tends to reduce the price of oil, is the fact that the Allegheny Valley Railroad will be completed through to Oil City within two weeks; after that, oil can be brought here independent of the river.

REFINED—The market for bonded oil continues dull and unsettled, and, compared with last week, prices have declined materially, and even at the decline, the market is devoid of life or animation. There was but a single sale reported to-day—500 for December, buyer's option, at 26½c—last evening there was a sale of 1000 bbls for same month, at 27½c. Late in the afternoon, it was reported that 25½c to 26c were the best offers that could be obtained for November and December, but so far as we could learn, there were no offers to sell below 26½c. For all 1868, 500 each month, we continue to quote at 30c, delivered in Philadelphia; while January to July may be quoted at 27 to 27½c—there has been no sales for these deliveries for two or three days. Upon the whole, the market has been in a panicky condition all week, and notwithstanding there has been a fair volume of business, in the aggregate, prices have steadily declined all week.

RIVER NEWS.

The river remains about stationary at this point, while the weather continues cloudy and cold, with strong indications at times of snow. Fears are now seriously entertained that we will have a freeze-up before we have a rise, and it must be confessed that it looks very much like it at present.

The Louisville *Courier*, in noticing the fact that the R. E. Lee and Great Republic passed Memphis on Thursday for New Orleans, remarks:

The Robert E. Lee, we are assured, was drawing six feet water or more, flying light, and the Great Republic was drawing about the same water, yet both have successfully passed over the bar at Point Pleasant, where but five feet water was reported. It cannot be entertained for a moment that the boats were "poker marked," as it is not usual to show more water by their marks than they really draw, though it is alleged that many boats draw more water than indicated by their marks. The conclusion is that there was fully six feet of water, or more, over the bar aforesaid.

The Cincinnati *Commercial*, of Friday, says: The rapidly receding river causes shippers to hurry down their merchandise in order to get it off before we have lower water, or perhaps a suspension of navigation by ice. Mr. H. A. Dohrman is in charge of the office of the Wauanita, now loading for New Orleans. Dr. Thomas, President of the Merchants Insurance Company, returned from the sunken steamer Amelia Poe yesterday. He reports the Underwriters along side, with hopes of raising her. It will be remembered she was sunk in the Mississippi.

ST. LOUIS, November 14.—The Mary McDonald has entered the Vicksburg trade, and the W. L. Lewis will be the Saturday Memphis packet.

The Underwriters contemplate taking no risks to the Lower Mississippi on barges in tow of passenger steamers. The difficulties of navigation are increasing. Receipts were heavy yesterday and to-day. The Louisville has departed for New Orleans. The Sherman leaves this evening for Cincinnati.

THE STEAMBOAT LAW.—A committee of prominent and well-known steamboatmen, appointed by the late convention of captains and owners, is now in the city of Washington to represent the Western steamboats and the interests of Western commerce and navigation. Among the objects of the committee, representing the steamboat men, is one to amend the steamboat law. They have been in communication with Mr. McCulloch, the Secretary of the Treasury, who has the control of the department regulating and governing steamboats and steamboat inspectors, and the honorable Secretary has favorably received the committee and their suggestions.

This committee is composed of Captains Z. M. Sherley, of Louisville; Jas Pepper, of Cincinnati; E. W. Gould, of St. Louis; C. A. Dravo and M. Bel'zhoover, of Pittsburgh.

The new bill or law, recommended by the convention, favors a requirement of testing and branding boiler iron before it is used in the construction of steamboat boilers. Many of the engineers favor a safety valve that cannot be tampered with, or that Inspectors are not interested in. The subject of artificial draft should be acted upon, as very many practical men are opposed to it, considering it as likely to not only destroy the iron, but lead to disaster.

The Wheeling *Intelligencer*, of Friday, says: The Leni Leoti and Rapidan No. 2, arrived from Pittsburgh early yesterday morning. The former departed for Parkersburg at 11 o'clock, full passengers and freight; the latter departed for the Tennessee river about 10 o'clock with a fair trip. The Express arrived from Parkersburg about 10 o'clock. Captain Anshutz has concluded to lay her up to keep company with the Rebecca. The Leclaire arrived from Cincinnati with 150 tons of pig iron—100 tons for the LaBelle Mills and 50 for Pittsburgh. Captain Saint will probably load the Leclaire for Cincinnati. This will be a good opportunity for our merchants to ship freight between this point and that city.

We take the following from the Louisville *Courier*, of Thursday: The report was current yesterday that the local steamboat inspectors of this district, Reuben Dawson and John Crane, had been rotated out of office, and that Elias Withers, a former well known pilot, and Geo. Houghton, had been appointed in their places. The old incumbents were well versed in the duties of the office, and were always attentive and correct in the performance of their duties. Elias Withers we have known for many years as a Louisville and New Orleans pilot, but for several years past he has been farming in the vicinity of Salt river. Mr. Houghton is a practical engineer and foundryman of this city.

A Memphis telegram says: The Lee got off the bar at Point Pleasant by sinking two barges under her guards and pumping them out. The Great Republic sparred over 900 feet at same point. The latter boat is to run in the Memphis and New Orleans trade as Saturday packet, in connection with the Louisville railroad.

We clip the following from the Cincinnati *Gazette*, of Friday:

The Importer, from Pittsburgh, left last evening for St. Louis, drawing four feet, with barge clearing thirty inches. Her pilots are Jerry Mason, Dory Dunn and Jas. Stewart.

The Bellevernon also left for St. Louis last evening, having come from above. She was drawing three feet. Her pilots are Capt. Wm. Fuller and John Snyder.

The Wild Duck departed for New Orleans yesterday with two barges, each drawing three feet. Pilots, Ham. Hamlin and Isaac Pearce.

The Wauanita is the only boat onward for New Orleans.

Parties were endeavoring yesterday to get the Columbia to put in for a trip to Memphis.

A St. Louis exchange, of Wednesday, says: Business was moderately active on 'Change, and competition for Southern trade very brisk; the rates of freight established on Monday did not last as long as it took the parties interested to set them. To outsiders the scene on 'Change was decidedly amusing.

The Cincinnati *Enquirer*, of Friday, says: The Boaz, with six barges abreast, was stuck fast at Buffington Wednesday morning. The Bellevernon, in trying to get around them, got aground at the stern, and swinging around, her bow struck one of the barges, breaking off the stem. The Silver Lake was aground at the same place. The Potomac was there for some time, but got off, and is now laid up at Wheeling waiting for water.
